Purpose and Goals
The college of Letters and Sciences is home to a diverse number of degree programs, as well as many programs focused on students in transition. As students complete their spring 2015 semester and move toward the beginning of the next academic year, here is some useful information about our degrees/programs and requirements.

Exploratory
The College of Letters and Sciences offers four Exploratory Tracks that help guide students towards majors and careers that best fit their skills, abilities, values and interests. Exploratory advisors have a general knowledge of all ASU majors and a good foundation in university policies. They also have the ability to help a student create a realistic plan to improve overall academic performance while making progress towards multiple degrees of interest.

- Exploratory Health and Life Sciences
- Exploratory Humanities, Fine Arts and Design
- Exploratory Social Behavioral Sciences
- Exploratory Engineering, Math, Technology, and Physical Science
