

This template is to be used for proposed disestablishments included on the Academic Plan and for which the unit has received specific written approval from the Provost's office to proceed with internal proposal development and review. This proposal template should be completed and submitted by the Dean's Office to the University Provost's Office [mailto: curriculumplanning@asu.edu]. The disestablishment **may not** be implemented until the Provost's Office notifies the academic unit that the disestablishment proposal has completed the approval process.

**Implementation information:** Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean's Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation "This program is no longer accepting applications," until the approved effective date of the disestablishment.

**Briefly describe the rationale for disestablishment:**

We inherited this degree from the College of Technology and Innovation. It does not offer anything beyond our existing degrees; given our programs, the students would be better off pursuing the BS in biomedical informatics.

**Impact on other existing programs:**

May include availability of course content for students in other majors who may need it; other.  
None, the courses all come from other colleges.

**Impact on current students:**

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).  
4 students are declared majors, and all are either juniors or seniors. Two ought to graduate in spring 2016; one appears to be on track to graduate in spring 2017, and final one is hard to pin down since she does not seem to be focusing on the courses in the major. I have asked her advisor to contact her and see if she plans to finish this degree or change to another major. If she starts taking the courses more faithfully and continues to take only 12 hours per semester and not attend summers, she won't graduate until fall 2017. As long as we do not have to accept new students, I am happy to allow the students to all graduate in the degree. If that means full disestablishment in January 2018, then so be it.

**Applications:**

What term should applications close? If this change should be made immediately upon approval, please indicate this. Please note that the program will remain on Degree Search until such a time that no students remain enrolled in the program.  
They should have closed in 2014-15; if they have not, then they should be stopped immediately. It is verified that they have closed.

**Current applicants:**

Describe actions that will be taken regarding admitted students or students who have applied to this program? If current applicants should be moved to a new program, please indicate the plan code of that program. There are no applicants.

**Additional information:**

Provide any relevant information not required above that will assist in evaluating the proposal. The College of Health Solutions is working to weed out duplication in its majors and is in the process of streamlining our existing majors.
