**Briefly describe the rationale for disestablishment:**

Create more flexibility and opportunities to diversify for our students within the construction management program.

**Impact on other existing programs:**

May include availability of course content for students in other majors who may need it; other.

None.

**Impact on current students:**

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

There are approximately 223 students still enrolled - the anticipated date of last graduates is spring 2017. Students will be able to graduate without any issues in coursework. All coursework will stay the same. No impacts to MAPPs and TAGs.

**Additional information:**

Provide any relevant information not required above that will assist in evaluating the proposal.

Program will continue to have empases in each of the general, housing, specialty, and residential areas, but there will no longer be a degree for each area.
