Briefly describe the rationale for disestablishment:

As a traditionally low enrolment program and to increase efficiency of offerings, the Emergency Management concentration of the BAS program is being disestablished.

Impact on other existing programs:

May include availability of course content for students in other majors who may need it; other.

Since this is a BAS concentration, there are no other majors that use content that will no longer be taught.

Impact on current students:

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

There are approximately 18 students enrolled in Spring 2013. The anticipated date of the last graduate is Spring 2015. The major maps for existing students will be taught or appropriate substitutions made.
