

This template is to be used for proposed disestablishments included on the Academic Plan and for which the unit has received specific written approval from the Provost's office to proceed with internal proposal development and review. This proposal template should be completed and submitted by the Dean's Office to the University Provost's Office [[mailto: curriculumplanning@asu.edu](mailto:curriculumplanning@asu.edu)]. The disestablishment **may not** be implemented until the Provost's Office notifies the academic unit that the disestablishment proposal has completed the approval process.

UNIT AND PROGRAM INFORMATION

College/School/Institute: College of Technology and Innovation
Department/Division/School: Engineering Department
Name program to be disestablished: Mechanical Engineering Technology

Proposal Contact

Name: Ann McKenna **Title:** Chair
Phone number: 7-5121 **Email:** Ann.McKenna@asu.edu

DEAN APPROVAL(S)

This proposal has been approved by all necessary unit and College/School levels of review. I recommend implementation of the proposed organizational change.

College/School/Division Dean name: Mitzi Montoya
Signature  **Date:** 04/08/2013
College/School/Division Dean name:
(if more than one college involved)
Signature _____ **Date:** ____ / ____ /20

Note: An electronic signature, an email from the dean or dean's designee, or a PDF of the signed signature page is acceptable.

Implementation information: Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean's Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation "This program is no longer accepting applications," until the approved effective date of the disestablishment.

**PROPOSAL TO DISESTABLISH AN ACADEMIC PROGRAM
(Degree, concentration, certificate, minor)**

Name of program to be disestablished: Mechanical Engineering Technology and its concentrations		
Plan code(s) for the program: <i>If a degree program is being disestablished that has multiple concentrations, list all plan codes impacted.</i> TSMECBS, TSMECEBS, TSMECUBS, TSMECTBS		
Requested effective catalog year for the disestablishment: 2014-15		
Program Type	Degree Level	
<input checked="" type="checkbox"/> Degree/major Degree type (e.g., BA, MBA, PhD): BS	<input checked="" type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate
<input checked="" type="checkbox"/> Concentration for an existing degree program Degree and major: Three concentrations under this degree	<input checked="" type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate
<input type="checkbox"/> Minor		
<input type="checkbox"/> Certificate program	<input type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate

Briefly describe the rationale for disestablishment:

To increase efficiency of engineering-related offerings at the Polytechnic campus and within the College of Technology and Innovation, the Mechanical Engineering Technology program and all its concentrations are being disestablished.

Impact on other existing programs:

May include availability of course content for students in other majors who may need it; other.

In the long term, impact on other programs and their students should be limited as those programs also are being disestablished or modified. In the shorter term, there should be minimal impact since major maps for existing students will be taught or appropriate substitutions made in the next several years.

Impact on current students:

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

There are approximately 325 students enrolled in Spring 2013. Due to students entering the degree in Fall 2013, the anticipated date of the last graduate is Fall 2017. The major maps for existing students will be taught or appropriate substitutions made.

Additional information:

Provide any relevant information not required above that will assist in evaluating the proposal.

It is expected the any of the concentration topic areas within the above disestablishments that are not currently fielded in the BSE in Engineering degree will be proposed for that degree in fall 2013.
