

This template is to be used for proposed disestablishments included on the Academic Plan and for which the unit has received specific written approval from the Provost's office to proceed with internal proposal development and review. This proposal template should be completed and submitted by the Dean's Office to the University Provost's Office [[mailto: curriculumplanning@asu.edu](mailto:curriculumplanning@asu.edu)]. The disestablishment **may not** be implemented until the Provost's Office notifies the academic unit that the disestablishment proposal has completed the approval process.

UNIT AND PROGRAM INFORMATION

College/School/Institute: College of Technology and Innovation
Department/Division/School: Engineering
Name program to be disestablished: BS in Manufacturing Engineering Technology -- Mechanical Concentration

Proposal Contact

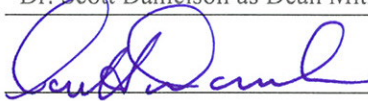

Name: Scott Danielson **Title:** Associate Dean for Academic Programs
Phone number: 7-1185 **Email:** sdanielson@asu.edu

DEAN APPROVAL(S)

This proposal has been approved by all necessary unit and College/School levels of review. I recommend implementation of the proposed organizational change.

College/School/Division Dean name: Dr. Scott Danielson as Dean Mitzi Montoya's designee

Signature

Date:

4/2/2013

College/School/Division Dean name:

(if more than one college involved)

Signature

Date:

/ /20

Note: An electronic signature, an email from the dean or dean's designee, or a PDF of the signed signature page is acceptable.

Implementation information: Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean's Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation "This program is no longer accepting applications," until the approved effective date of the disestablishment.

**PROPOSAL TO DISESTABLISH AN ACADEMIC PROGRAM
(Degree, concentration, certificate, minor)**

Name of program to be disestablished: BS in Manufacturing Engineering Technology -- Mechanical Concentration		
Plan code(s) for the program: <i>If a degree program is being disestablished that has multiple concentrations, list all plan codes impacted.</i> TSMETMBS		
Requested effective catalog year for the disestablishment: 2013-14		
Program Type	Degree Level	
<input type="checkbox"/> Degree/major Degree type (e.g., BA, MBA, PhD):	<input type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate
<input checked="" type="checkbox"/> Concentration for an existing degree program Degree and major: BS in Manufacturing Engineering Technology	<input checked="" type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate
<input type="checkbox"/> Minor		
<input type="checkbox"/> Certificate program	<input type="checkbox"/> Undergraduate	<input type="checkbox"/> Graduate

Briefly describe the rationale for disestablishment:

The BS in Manufacturing Engineering Technology degree will be renamed to the Product Development and Manufacturing Technology degree as of August 15, 2013. This newly named degree will not have a concentration. Thus, this concentration is no longer needed. While we wish to stop admission to the concentration as of Fall 2013, we also wish to main maintain it as a pathway for graduation for exisiting students in the Manufacturing Engineering Technology degree that want to keep their old degree name.

Impact on other existing programs:

May include availability of course content for students in other majors who may need it; other.

All courses used by other majors will continue to be taught under the Product Development and Manufacturing Technology degree.

Impact on current students:

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

Approximately 19 students currently are in the degree plan. The last graduates are expected in spring 2016 as there were 2 new freshman admitted in fall 2012. Continuing students will be served by teaching out the major map of the degree concentration and/or by course substitutions as the Engineering Department will continue to teach related courses. Transfer students will be served by the Product Development and Manufacturing Technology degree.

Additional information:

Provide any relevant information not required above that will assist in evaluating the proposal.

It is the CTI's understanding that this degree plan will no longer admit students for fall 2013. But, existing ASU students with a catalgo year of 2012-2013 or before will be able to transfer into this concentration/degree (in particular, students in the newly renamed Product Development and Manufacturing Technology degree may wish to do this to preserve their original degree title) as long as they graduate by Spring 2016.
