Briefly describe the rationale for disestablishment:

This is a restricted move, because students will have the option to complete the MSE in IE program or change to the MS in IE (non-thesis) program.

Impact on other existing programs: Could include availability of course content for students in other majors who may need it; other.
No impact

Impact on current students: Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (ex. MAPP, TAG).

No impact (PeopleSoft indicates that there are currently 37 students enrolled in this program). In Fall 2011, students were given the option to complete the MSE in IE or change over to the MS in IE (non-thesis option). The academic unit heard back from 24 students who wanted to change from the MSE in IE to the MS in IE (non-thesis). Those requests with the change from MSE to MS were made. The rest of the students chose to stay and complete the MSE in IE degree.
