Subject: RE: W. P. Carey School of Business minor proposal

I strongly support the proposed minor in real estate. This is a valuable addition to the offerings available to ASU students. I can easily see students from the School of Public Affairs, majoring in Urban and Metropolitan Studies or Public Service and Public Policy, taking advantage of this program.

Sincerely,

Jonathan Koppell

Director, ASU School of Public Affairs

Mark,

We support the creation of a minor in real estate and will work with W. P. Carey to determine the appropriate class(s) to be made available for students pursuing this minor.

Dear Mark:

I reviewed your proposal and am happy to support it. I believe our SOS 332: Sustainable Urban Dynamics course would be an excellent elective for your minor. Please feel free to list it.

Best,
Chris

Subject: **RE: Minor in Real Estate**

Dear Mark,

I have touched base with Howard here in our program, looked at the proposal and feel it would be fine for the minor students to take CON 472 as an elective in the minor. We think that this minor will be a good addition. The only requirement would be make sure that students understand that REA 380, one of the courses listed as a core course in the real estate minor, is a prerequisite for CON 472.

Thanks

Edd

Hi Sher: Our school supports this new minor, and we are happy to have GCU 361 and PUP 434 part of the minor. GCU 361 has no prerequisites, but PUP 434 has a prerequisite that students must be Urban Planning majors; however, we'd be happy to waive that prerequisite for the new Real Estate minor students.

We would be happy to accommodate the students in the minor, and yes, we can support the increase in our course capacities of GCU 361 and PUP 434 to do so.

Best wishes,

Dr. Shaeffer
