

ASU
ARIZONA STATE UNIVERSITY

Dr. Elizabeth Capaldi
Executive Vice-President and Provost
Arizona State University

Dear Betty,

The College of Teacher Education and Leadership requests that the college's BAE in Secondary Education with a Natural Science Specialization be *disestablished* effective fall 2010. This change is a result of the college's reorganization and it no longer make sense to offer this program as students have a variety of BAE Secondary Education Science options available to them, including biology, chemistry and physics.

There are approximately five (5) students remaining in this program and those students will be allowed to finish their coursework. Multiple science options will be offered to students in the future.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Mari Koerner".

Mari Koerner, Dean

College of Teacher Education and Leadership
