ARIZONA STATE UNIVERSITY
PROPOSAL TO ESTABLISH A NEW UNDERGRADUATE DEGREE

This template is to be used only by programs that have received specific written approval from the Provost’s office to proceed with internal proposal development and review. A separate proposal must be submitted for each individual new degree program.

DEGREE PROGRAM INFORMATION
College/School(s) offering this degree: College of Liberal Arts and Sciences
Unit(s) within college/school responsible for program: Department of Physics
If this is for an official joint degree program, list all units and colleges/schools that will be involved in offering the degree program and providing the necessary resources: n/a

Proposed Degree Name: Physics (Bachelor of Arts)
Undergraduate Degree Type: BA-Bachelor of Arts
   If Degree Type is Other, provide proposed degree type: n/a
   and proposed abbreviation: LAPHYBA
Proposed title of major: Physics (BA)
Is a program fee required? Yes ☐ No ☒
Requested effective term: Spring and year: 2010
(The first semester and year for which students may begin applying to the program.)

PROPOSAL CONTACT INFORMATION
(Person to contact regarding this proposal)
Name: Sabrina Mathues
Phone: 480-965-9075
email: Sabrina.Mathues@asu.edu
Title: Academic Advisor

DEAN APPROVAL
This proposal has been approved by all necessary unit and College/School levels of review, and the College/School(s) has the resources to offer this degree program. I recommend implementation of the proposed degree program. (Note: An electronic signature, an email from the dean or dean’s designee, or a PDF of the signed signature page is acceptable.)

College Dean name: ____________________________ Date: __________
College Dean signature: ____________________________

College Dean name: ____________________________ Date: __________
(If more than one college involved)
College Dean signature: ____________________________
ARIZONA STATE UNIVERSITY
PROPOSAL TO ESTABLISH A NEW UNDERGRADUATE DEGREE

This proposal template should be completed in full and submitted to the University Provost’s Academic Council [mailto:curriculum@asu.edu]. It must undergo all internal university review and approval steps including those at the unit, college, and university levels. A program may not be implemented until the Provost’s Office notifies the academic unit that the program may be offered.

DEGREE PROGRAM INFORMATION

Undergraduate: BA-Bachelor of Arts

If Degree Type is Other, provide proposed degree type: n/a
and proposed abbreviation:

Proposed title of major: Physics (BA)

1. PURPOSE AND NATURE OF PROGRAM
   A. Brief program description (This is a catalog type description of no more than 250 words. Include the distinctive features of the program that make it unique. Do not include program or admission requirements.)

   The Physics (BA) degree provides a flexible and efficient option for students who are interested in a liberal arts degree with broad knowledge of physics and at least one other area. This degree program is ideal for students seeking double-major degrees with physics as the second degree. Students wishing to pursue a graduate degree in physics are advised to consider the Physics (BS) option.

2. STUDENT LEARNING OUTCOMES AND ASSESSMENT
   A. List the knowledge, competencies, and skills students should have when they graduate from the proposed degree program. (You can find examples of program Learning Outcomes at [http://www.asu.edu/oue/assessment.html])

   1. Understand the fundamental concepts, principles, and applications of classical physics (mechanics, electricity and magnetism, thermodynamics) and modern physics (relativity, quantum mechanics).
   2. Apply mathematical tools to provide qualitative and quantitative solutions to physics problems.
   3. Communicate clearly physics concepts, results, and the interpretation of results in oral and written presentations.
   4. Augment learning of physics with substantial knowledge in at least one other area (for example—chemistry, education, kinesiology, law, math, political science, etc.) or additional study in physics. [This learning objective distinguishes this program from the B.S. in Physics.]

   B. Describe the plan and methods to assess whether students have achieved the knowledge, competencies and skills identified in the Learning Outcomes. (You can find examples of assessment methods at [http://www.asu.edu/oue/assessment.html])

   SLO 1. Measure 1. A sample of graded examinations and homework problems will be selected from PHY 310, 311, and 314. Question content will be assessed for coverage of standard topics in classical mechanics, electricity and magnetism, modern physics, and quantum mechanics. Student performance assessments on those questions will be reviewed to determine if the topic mastery has been appropriately assessed.
   SLO 1. Measure 2. Employment in a position or job using the physics knowledge obtained or entry into a graduate program.
SLO 2. Measure 1. A sample of graded examinations and homework problems will be selected from PHY 310, 311, and 314. Question content will be assessed for usage of mathematical skills in classical mechanics, electricity and magnetism, modern physics, and quantum mechanics. Student performance assessments on those questions will be reviewed to determine if the topic mastery has been appropriately assessed.

SLO 2. Measure 2. Employment in a position or job using mathematical knowledge obtained or entry into a graduate program requiring mathematical skills.

SLO 3. Measure 1. A sample of student project posters and presentations will be selected from courses, department research symposia, or other physics-related activities. These will be assessed for clarity and accuracy.

SLO 3. Measure 2. Employment in a position or job requiring technical communication or entry into a graduate program.

SLO 4. Measure 1. Successful completion of 6 upper-division credit hours of coursework (noted as program specific electives) in physics or another area with a grade of C or better.

SLO 4. Measure 2. Employment in a position or job using the physics or related area knowledge obtained or entry into a graduate program.

3. CURRICULUM OF THE PROPOSED PROGRAM

Total credit hours must be 120 to include: first year composition, general studies, core/required courses, program specific electives, and any additional requirements.

A. Major Map. Please prepare and attach a Major Map. If there are concentrations in this degree program, prepare a separate Major Map for each one. (Examples of Major Maps can be found at http://provost.asu.edu/curriculum)

B. Total credit hours required for this program: 120 total (49 specific to the major)

C. Core/Required Courses.
   i. Total required and/or core course credit hours: 43 credits
   ii. List the name, prefix, and credit hours for each required/core class for this program:

List the name, prefix, and credit hours for each required/core class for this program:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prefix</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT270</td>
<td>Calculus with Analytic Geometry I</td>
<td>4</td>

</tbody>
</table>

E. **Additional Program Requirements, if any.** List and describe any capstone experiences, milestone, and/or additional requirements for this degree program:

**none**

F. Are any concentrations to be established under this degree program? □ Yes ☒ No

i. If “Yes”, please check one:

□ Students must select a concentration as part of this degree program
□ Concentrations are optional

ii. List courses & additional requirements for the proposed concentration (s):

<table>
<thead>
<tr>
<th>Concentration Name</th>
<th>Total credit hours</th>
<th>Core/Required Courses for Concentration (include course name and prefix)</th>
<th>Total Core credit hours</th>
<th>Program Specific Electives (include course name and prefix)</th>
<th>Total Elective credit hours</th>
<th>Additional Requirements (i.e. milestones, capstones)</th>
</tr>
</thead>
</table>

(Please expand table as needed. Right click in white space of last cell. Select “Insert Rows Below”)

4. **NEW COURSE DEVELOPMENT**

A. Will a new course prefix(es) be required for this degree program? Yes □ No ☒

If yes, complete the request for establishment of a new prefix for each prefix and submit with this proposal.

B. New Courses Required for Proposed Degree Program. List all new courses required for this program, including course prefix, number and course description.

n/a
5. **PROGRAM NEED.** Explain why the university needs to offer this program (include target audience and market).

This initiative is in keeping with the University’s goals to promote transdisciplinary studies while maintaining the standard of four-year degree completion. Students currently pursuing other degree programs have expressed an interest in completing a second degree in physics. The BA will allow the flexibility required for such students to develop a strong foundation in physics while pursuing other interests in the liberal arts and sciences, or other academic areas.

6. **IMPACT ON OTHER PROGRAMS.** List other academic units that might be impacted by the proposed program and describe the potential impact (e.g., how the implementation of this program might affect student headcount/enrollment, student recruitment, faculty participation, course content, etc. in other programs). Attach letters of collaboration/support from impacted programs.

1. Math Department: Core courses for the BA include MAT270, MAT271, and MAT272 as pre- and co-requisites. Enrollment could increase for these courses.
2. Chemistry Department: CHM117 has been adopted as a core course to strengthen the breadth of physics students’ interdisciplinarity. Enrollment could increase for this course.
3. Other departments offering courses which may be used to satisfy the 6 required upper-division credits of program-specific electives may also be impacted (for example, School of Earth and Space Exploration or the School of Life Sciences). While no new courses need be created by these other academic units, enrollment may increase for existing upper-division courses.

7. **PROJECTED ENROLLMENT** How many new students do you anticipate enrolling in this program each year for the next five years? Please utilize the following tabular format.

<table>
<thead>
<tr>
<th>5-YEAR PROJECTED ANNUAL ENROLLMENT</th>
<th>1st Year</th>
<th>2nd Year</th>
<th>3rd Year</th>
<th>4th Year</th>
<th>5th Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of Students Majoring (Headcount)</td>
<td>5</td>
<td>12</td>
<td>20</td>
<td>22</td>
<td>25</td>
</tr>
</tbody>
</table>

8. **ACCREDITATION OR LICENSING REQUIREMENTS (if applicable).** Provide the names of the external agencies for accreditation, professional licensing, etc. that guide your curriculum for this program, if any. Describe any requirements for accreditation or licensing.

n/a

9. **FACULTY and STAFF**
   a. **Current Faculty.** List the name, rank, highest degree, area of specialization/expertise and estimate of the level of involvement of all current faculty who will teach in the program.

   **Expertise - Biological Physics**
   Regents Professor Stuart Lindsay, Ph.D.
   Professor Timothy Newman, Ph.D.
   Assistant Professor Banu Ozkan, Ph.D.
   Associate Professor Robert Ros, Ph.D.
   Regents Professor Otto Sankey, Ph.D.
   Professor Michael Thorpe, Ph.D.

   **Mentors honors research**
   Teaches biophysics topics courses
   Teaches biophysics topics course and statistical and thermal physics
   Teaches introductory physics sequence courses
   Teaches statistical and thermal physics
b. **New Faculty.** Describe the new faculty hiring needed during the next three years to sustain the program. List the anticipated hiring schedule and financial sources for supporting the addition of these faculty.

none

c. **Administration of the program.** Explain how the program will be administered for the purposes of admissions, advising, course offerings, etc. Discuss the available staff support.

This program will be administered through the Department of Physics and will utilize existing staff support.
10. RESOURCES (necessary to launch and sustain the program)
   a. Describe any new resources required for this program’s success, such as new support staff, new facilities, new library resources, new technology resources, etc.
      
      none

   b. Explain where you will get the resources to support this program.
      
      none
APPENDIX
OPERATIONAL INFORMATION FOR UNDERGRADUATE PROGRAMS
(This information is used to populate the Degree Search/catalog website.)

1. **Contact and Support Information**

   Office Location (Building & Room): Bateman Physical Sciences F-Building Room 470
   
   Campus Telephone Number: 480-965-3561
   
   Program email address: physics.info@asu.edu
   
   Program website address: http://physics.asu.edu

2. **Additional Program Description Information**

   A. Additional program fee required for this program? Yes ☐ No ✗
   
   B. Does this program have a second language requirement? Yes ☐ No ☐

3. **Career Opportunities & Concentrations**

   Provide a brief description of career opportunities available for this degree program. If program will have concentrations, provide a brief description for each concentration.

   Health Physicist, Medical Doctor (with additional pre-med coursework), Lawyer, Patent Attorney, Physical Therapist, Radiation Physicist, Research/Lab Assistant, Science Policy Analyst, Secondary Science Teacher, Technology Support Analyst

4. **Additional Admission Requirements**

   If applicable list any admission requirements (freshman and/or transfer) that are higher than and/or in addition to the university minimum undergraduate admission requirements.

   none

5. **Keywords**

   List all keywords used to search for this program. Keywords should be specific to the proposed program.

   physics, physical science

6. **Area(s) of Interest**

   A. Select one (1) primary Area of Interest from the list below that applies to this program.

   - Architecture, Construction & Design
   - Artistic Expression & Performance
   - Biological Sciences, Health & Wellness
   - Business, Management & Economics
   - Communication & Media
   - Computing & Mathematics
   - Education & Teaching
   - Engineering & Technology
   - Environmental Issues & Physical Sci
   - Interdisciplinary Studies
   - Languages & Cultures
   - Law & Justice
   - Social Science, Policies & Issues

   B. Select any additional Areas of Interest that apply to this program from the list below.
- Architecture, Construction & Design
- Artistic Expression & Performance
- Biological Sciences, Health & Wellness
- Business, Management & Economics
- Communication & Media
- Computing & Mathematics
- Education & Teaching
- Environmental Issues & Physical Sciences
- Engineering & Technology
- Interdisciplinary Studies
- Languages & Cultures
- Law & Justice
- Social Science, Policies & Issues
The attached curriculum proposals (BA in Physics and PhD in Animal Behavior within the School of Life Sciences) were approved by the CLAS Curriculum Committee and Senate. I endorse these proposals.

Thank you.
