Subject: URGENT approval of cross listings

Josephine,

I'm sorry to bother you at such a time, but the university Council on Academic Program will not accept our informatics proposal unless we cross-list the 5xx EDT courses with 4xx course numbers (as shown below in red) and promise to put the 4xx numbered courses into ACRES in the future. I checked the course catalog, and these 4xx numbers are not currently in use. I would like your approve (a simple "yes" will suffice) before COB today in order to file this change.

- EDT 501 → EDT 461 Foundations and Issues in Educational Technology (3)
- EDT 502 → EDT 462 Design and Development of Instruction (3)
- EDT 503 → EDT 463 Instructional Medial Design (3)
- EDT 504 → EDT 464 Development of Computer-based Instruction (3)

Thanks a lot,
Kurt

Subject: Re: Letter of support for Informatics BS (URGENT)

Bob Atkinson, the Technology faculty, and I endorsed this program and will help enable qualified undergraduate students enroll in the graduate level courses in the Educational Informatics focus.

Sincerely, Josephine

Subject: Letter of support for Informatics BS (URGENT)

The faculty of the Department of Biomedical Informatics in the School of Computing and Informatics enthusiastically supports the proposal for a new Bachelor of Science degree in Biomedical Informatics. Please do not hesitate to contact me for more information or clarifications.
Best regards,
