PROPOSAL TO ESTABLISH A NEW UNDERGRADUATE DEGREE PROGRAM

This template is to be used only by programs that have received specific written approval from the Provost’s office to proceed with internal proposal development and review. The proposal template should be completed in full and submitted to the University Provost’s Office [mail: curriculumplanning@asu.edu]. It must undergo all internal university review and approval steps including those at the unit, college, and university levels. A program may not be implemented until the Provost’s Office notifies the academic unit that the program may be offered.

College/School/Institute: Thunderbird School of Global Management
Department/Division/School: Thunderbird Academy
Proposing Faculty Group (if applicable):
Is this an official joint degree program? No, this is not a joint degree program

If “Yes” List all the additional college(s)/school(s)/institute(s) that will be involved in offering the degree program and providing the necessary resources. Note: All units offering this program must have collaborated in the proposal development and completed the appropriate unit and college/school approvals.

Degree type: BS-Bachelor of Science
If other, provide degree type title and proposed abbreviation: International Trade

Name of degree program (major):
International Trade
Are any concentrations to be established under this degree program? No, concentrations will not be established.
Is a program fee required? No, a program fee is not required.
What is the first catalog year available for students to select on the undergraduate application for this program? 2016-17

Delivery method:
On-campus only (ground courses and/or iCourses)

Note: Once students elect a campus or On-line option, students will not be able to move back and forth between the on-campus and the ASU Online options. Approval from the Office of the University Provost and Philip Regier (Executive Vice Provost and Dean) is required to offer programs through ASU Online.

Campus/Locations: indicate all locations where this program will be offered.
☐ Downtown Phoenix  ☐ Polytechnic  ☐ Tempe  ☑ West  Other: 

Proposal Contact
Name: Roy Nelson  Title: Academic Director, Thunderbird Undergraduate Pgm
Phone number: (602) 978-7025  Email: roy.nelson@thunderbird.asu.edu

DEAN APPROVAL(S)

This proposal has been approved by all necessary unit and College/School levels of review.
I recommend implementation of the proposed organizational change.

College/School/Division Dean name: Marlene Tromp
Signature: ___________________________  Date: 2/9/2016

College/School/Division Dean name: (If more than one college involved)
Signature: ___________________________  Date: / /20

Note: An electronic signature, an email from the dean or dean’s designee, or a PDF of the signed signature page is acceptable.

Proposal for a New Undergraduate Degree Program
Rev. 9/2015
1. Purpose and Nature of Program

Provide a brief program description. Include the distinctive features of the program that make it unique.

The BS in International Trade provides a rigorous training in skills related to a career in international trade. It is unique in training students not only in the functional disciplines of international business, but also in the knowledge and skills needed to do business in different parts of the world. The two required "Regional Management Environment" courses give students an in-depth understanding in the political, cultural, and economic aspects of doing business in specific regions. The course on Supply Chain Operations for Global Organizations provides students with a global perspective on managing supply chains. The course on International Trade and Regional Economic Agreements gives students the tools to use economic agreements to develop an effective strategy for conducting international trade, as well as practical skills needed for exporting and important goods and services. The course on Global Risk Assessment and Management provides tools to do systematic assessment of political, economic, financial, and commercial risks related to international trade. Together these courses, along with supporting courses in International Economics, the required international internship, and the capstone Pro-Seminar course, develop students for a wide range of careers involving international trade.

2. Student Learning Outcomes and Assessment Methods

A. Knowledge, competencies, and skills

List the knowledge, competencies, and skills students should have when they graduate from the proposed degree program. You can find examples of program Learning Outcomes at (https://uoeee.asu.edu/plan-outcomes).

Outcome 1: Students will be able to demonstrate an enhanced global mindset.
Outcome 2: Students will be able to demonstrate competence in global leadership.
Outcome 3: Students will be able to demonstrate knowledge of the business environment of two different regions of the world.
Outcome 4: Students will be able to demonstrate the ability to think analytically in a global context
Outcome 5: Knowledge of core business functions in a global context

B. Assessment

Describe the plan and methods to assess whether students have achieved the knowledge, competencies and skills identified in the Learning Outcomes. You can find examples of assessment methods at (https://uoeee.asu.edu/creating-plan).

Outcome 1 (Measure): This outcome will be met if at last 70% of the students increase their score on the Global Mindset Inventory (GMI) assessment by at least 10% by the end of the program.

Outcome 2 (Measure): Rubric created by full-time faculty to assess leadership competencies as "exceeding faculty expectations," "meeting faculty expectations," and "not meeting faculty expectations." This rubric will be incorporated into the final exam for TGM 489. This outcome will be met if at least 70% of the students meet faculty expectations.

Outcome 3 (Measure): Rubric created by full-time faculty to assess knowledge of the business environment of two different regions of the world. This rubric will be incorporated into the final exam for both TGM 353 courses. This outcome will be met if at least 70% of the students meet faculty expectations.

Outcome 4 (Measure): Rubric created by full-time faculty to assess ability to think analytically in a global context as "exceeding faculty expectations," "meeting faculty expectations," and "not meeting faculty expectations." This rubric will be incorporated into the final exam for TGM 489. This outcome will be met if at least 70% of the students meet faculty expectations.

Outcome 5 (Measure): Rubric created by full-time faculty to assess ability to think analytically in a global context as "exceeding faculty expectations," "meeting faculty expectations," and "not meeting faculty expectations." This rubric will be incorporated into the final exam for TGM 489. This outcome will be met if at least 70% of the students meet faculty expectations.
3. Academic Curriculum and Requirements

A. **Major Map.**
Attach a copy of the “proposed” major map for this degree program and each concentration(s) to be offered. Instructions on how to create a “proposed major map” in BAMM can be found in the Build a Major Map Training Guide.

B. **Summary of credit hours required for this program**
Total credit hours must be 120 and include first year composition, general studies, core/required courses, program specific electives, and any additional requirements (e.g., concentration credits).

<table>
<thead>
<tr>

      TGM 460 Global Risk Assessment and Management (3)
      TGM 468 States and Markets (3)
      TGM 484 Internship (3)
      TGM 489 Multinational Organizational Leadership (3)
      TGM 498 Pro-Seminar, L (3)

D. Program Specific Electives.

   i. Total required program elective credit hours:

      None

   ii. List the name, prefix, and credit hours for any program specific electives for this program:

      None

E. Additional Program Requirements, if any:

   List and describe any capstone experiences, milestone, and/or additional requirements.

      None
F. Concentrations

i. Are any concentrations to be established under this degree program? **No, concentrations will not be established.**

ii. If yes, are concentrations required? (Select One)

iii. List courses & additional requirements for the proposed concentration(s):

<table>
<thead>
<tr>
<th>Concentration Name</th>

4. New Course Development

A. **Will a new course prefix (es) be required for this degree program? No**

   If yes, list prefix name(s) (i.e. ENG- English)

   Note: A request for a New Prefix form must be completed for each new prefix required and submitted with this proposal: http://provost.asu.edu/files/shared/curriculum/Prefix_Request.doc.

B. **New Courses Required for Proposed Degree Program.**
List all new courses required for this program, including course prefix, number and course description.

- **TGM 101 Principles of Global Management (APPROVED)**
  This course will provide the student with the basic concepts of management with particular emphasis on the functions of management in a global environment. This course will examine the antecedents of globalization, the role of global environments in shaping organization structure, strategy, and processes, as well as the basic principles of managing in complex cross-cultural settings. Given the nature of the course, its emphasis will lean toward global institutional arrangements and macroeconomic issues, It is meant to serve as an introductory course which will provide students with a quick snapshot of key issues facing global corporations today with each of the major themes explored more fully in the set of advanced courses that follow. At the end of this course students will be able to apply global business concepts in understanding global political economics, legal systems and socio-cultural environments.

- **TGM 200 Principles of Accounting for Global Organizations (APPROVED)**
  This course focuses on financial and managerial accounting and will examine how outsiders evaluate businesses, non-profits, and governmental operations and how economic events are reflected in a firm's financial statements, including balance sheets, and cash flow statements. We will examine key accounting methods that impact a company's financial statements and how they are used by shareholders, creditors, employees, and customers to make credit decisions and/or value a firm's equity securities.

- **TGM 204 Principles of Marketing for Global Organizations (APPROVED)**
  In this class we will explore the ways in which global marketing strategies reflect a deep understanding of markets and create valuable offerings for customers globally. Broadly speaking, marketing strategy making is comprised of segmentation, targeting, and positioning. Segmentation is the process by which we segregate a relatively heterogeneous mass market into relatively homogeneous market segments. Targeting is the process by which we analyze opportunities and identify those customers where our business has the greatest prospects for success. Positioning is the process of assembling the “total offering” (product, service, distribution, and price) and communicating the benefits of this “total offering” to the members of our target market. This course will challenge you to think critically about global competition. As such, rote learning of terms and concepts is not sufficient to prepare you to manage a business in global markets.

- **TGM 300 Principles of Finance for Global Organizations (APPROVED)**
  This course will equip students with the tools necessary to make strategic financing and investment decisions for value creation in a competitive global environment. Topics addressed include financial analysis and projections, working capital management, and investment management (derivation of cash flows, cost of capital, discounted cash flow valuation, and capital budgeting decisions).

- **TGM 310 Supply Chain Operations for Global Organizations (APPROVED)**
  Studies the major elements of supply chain management. Students will learn how to design an integrated supply chain and evaluate the fit with the business strategy.

- **TGM 312 Big Data in the Global Economy (APPROVED)**
  This course is about understanding how multinational organizations make strategic use of big data to gain a competitive advantage in the global economy. It also covers the important aspects of big data from a managerial viewpoint. It delves into the understanding of global data and how this data must be standardized to account for differences in collection methods, legal constraints, and cultural interpretation to create a reliable platform for evaluation.
TGM 353 Regional Management Environment (APPROVED)
This course is designed to provide future global managers with the analytical tools and frameworks for understanding the political, social, cultural, and economic contexts within which business activities take place in various countries and regions throughout the world.

TGM 400 Advanced Topics in Global Management (APPROVED)
Focuses on advanced topics in global management designed to synthesize knowledge acquired from global business, language, and cultural coursework.

TGM 430 International Trade and Regional Economic Agreements (APPROVED)
The course explores recent trends in global finance and trade and in regional trade agreements (GFTAREAs), especially as they appertain to national business environments and the global political economy. Furthermore, it explores how globalization and regionalism impact business decision-making and policy making at the national level and in the global political economy.

TGM 460 Global Risk Assessment and Management (APPROVED)
This course introduces participants to the concept of regional and country risk as it affects foreign businesses and investors, and develops participants' abilities to identify, analyze, and design management strategies for mitigating such risk.

TGM 468 States and Markets (APPROVED)
Global managers operate in an international economy that presents tremendous opportunities as well as risks. Globalization has dramatically expanded opportunities for international trade, investment, and economic development. At the same time, global managers have to deal with the prospect of trade wars, international financial crises, and intensified competition over markets and resources. In addition, international organizations such as the International Monetary Fund, World Trade Organization and World Bank Group have a direct impact on international business operations. The overall objective of this course is to develop analytical tools for understanding the rapidly changing and dynamic global political. With these tools, managers will be better prepared to anticipate the risks and take advantage of the opportunities they will encounter in the global economy.

TGM 489 Multinational Organizational Leadership (APPROVED)
This course will explore multinational organizational management strategies, organizational practices/systems, and related managerial skills which are an essential part of global competitiveness. Students will develop skills to understand the application of analytical tools and frameworks, execute complex strategy, and build and lead competitive teams and people.

Note: New course requests must be submitted electronically via Curriculum ChangeMaker and undergo all internal university review and approval steps including those at the unit, college, and university levels.

5. Program Need
Explain why the university needs to offer this program (include target audience and market).

Business is now global, and is increasingly conducted on a global scale. In the 21st century, effective business managers, whether they are based in the U.S. or elsewhere, need to know how to conduct business internationally. This is why there is a need for a rigorous Bachelor of Science program in International Trade, with a strong emphasis not only on the functional disciplines of international business and supporting disciplines such as international economics, mathematics for business analysis, and data analysis, but also on how to do business in different regions of the world, how to assess risk, how to lead global teams, and how to manage global supply chains. The target audience for this program is students who are interested in careers in international trade, and who want the skills needed to succeed in an increasingly competitive global business environment.

6. Impact on Other Programs
List other academic units that might be impacted by the proposed program and describe the potential impact (e.g., how the implementation of this program might affect student headcount/enrollment, student recruitment, faculty participation, course content, etc. in other programs). Attach letters of collaboration/support from impacted programs.

The W.P. Carey School of Business would experience a minimal impact, if any. The Thunderbird BS International Trade has a highly specialized focus on international/global business that would be of interest primarily to that subset of students.
interested in doing business overseas. For this reason the program will not have an adverse impact on the W.P. Carey headcount. One course offered in the program, ECN 306 Survey of International Economics, will be taught by W.P. Carey faculty (Kay Faris has already provided a letter (attached) stating that projected future student enrollments in the BS in International Trade will not have an adverse impact on that course). Another letter attached provides an impact statement on the program as a whole. The Provost's Office requested an impact statement from Tempe campus School of Politics and Global Studies, and this impact statement is attached as well.

7. Projected Enrollment

How many new students do you anticipate enrolling in this program each year for the next five years?

<table>
<thead>
<tr>
<th>5-YEAR PROJECTED ANNUAL ENROLLMENT</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Year (Yr 1 continuing + new entering)</td>
</tr>
<tr>
<td>Number of Students Majoring (Headcount)</td>
</tr>
</tbody>
</table>
8. Accreditation or Licensing Requirements

If applicable, provide the names of the external agencies for accreditation, professional licensing, etc. that guide your curriculum for this program, if any. Describe any requirements for accreditation or licensing.

None

9. Faculty & Staff

A. Current faculty

List the name, rank, highest degree, area of specialization/expertise and estimate of the level of involvement of all current faculties who will teach in the program.

Nelson, Roy PhD-Associate Professor of Global Studies-60%
Davison, Dale PhD-Clinical Professor-10%
Carter, Joseph-CPSM, C.P.M, Avnet Professor of Supply Chain Mgmt.-20%
Sainam, Preethika PhD-Assistant Professor of Global Business--10%
Babarinde, Olufemi PhD-Clinical Associate of Global Studies-20%
Booth, Lena PhD-Associate Professor of Global Finance 10%
Teagarden, Mary PhD-Professor of Global Studies-10%
Bowen, David PhD-Professor Global Management-10%
Moffett, Michael PhD-Associate Professor Global Business10%

B. New Faculty:

Describe the new faculty hiring needed during the next three years to sustain the program. List the anticipated hiring schedule and financial sources for supporting the addition of these faculty members.

No additional hiring is required for this degree.

C. Administration of the program.

Explain how the program will be administered for the purposes of admissions, advising, course offerings, etc. Discuss the available staff support.

The program falls under the standard recruitment, admissions, advising, course offerings (general ed.) and retention support of ASU New College administration. Thunderbird will provide academic input related to the curriculum and faculty who teach Thunderbird courses.

10. Resources (necessary to launch and sustain the program)

A. Required resources:

Describe any new resources required for this program’s success, such as new support staff, new facilities, new library resources, new technology resources, etc.

No new facilities, library, technology, or support resources will be needed.

B. Resource acquisition:

Explain how the resources to support this program will be obtained.

N/A
1. **Program Name (Major):** International Trade, BS

2. **Program Description (150 words maximum)**

   The BS in international trade provides a rigorous training in skills related to a career in international trade. It is unique in training students in the knowledge and skills needed to do business in different parts of the world. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural, and economic aspects of doing business in the international market. Supported by Thunderbird's emphasis on a global perspective, students acquire tools to manage supply chains, systematically assess risk, export and import goods and services, and use economic agreements to develop effective strategies for conducting international trade.

3. **Contact and Support Information**

   - Building Name, code and room number: *(Search ASU map)* FAB N201
   - Program office telephone number: *(i.e. 480/965-2100)* 602/543-4444
   - Program Email Address: harcsadvising@asu.edu
   - Program Website Address: https://newcollege.asu.edu/college-advisor

4. **Delivery/Campus Information**

   Delivery: On-campus only (ground courses and/or iCourses)

   *Note: Once students elect a campus or On-line option, students will not be able to move back and forth between the on-campus and the ASU Online options. Approval from the Office of the University Provost and Philip Regier (Executive Vice Provost and Dean) is required to offer programs through ASU Online.*

5. **Campus/Locations:** indicate all locations where this program will be offered.

   - Downtown
   - Phoenix
   - Polytechnic
   - Tempe
   - West
   - Other:

6. **Additional Program Description Information**

   A. Additional program fee required for this program? Yes
   B. Does this program have a second language requirement? No

7. **Career Opportunities & Concentrations**

   Provide a brief description of career opportunities available for this degree program. If program will have concentrations, provide a brief description for each concentration. (150 words maximum)

   There are numerous possible career opportunities related to international trade, including careers as international country account managers, managers, international sales managers, international business development managers, regional managers, export and import brokers, international consultants, international logistics specialists and global supply chain managers, among others.

8. **Additional Admission Requirements**

   If applicable list any admission requirements (freshman and/or transfer) that are higher than and/or in addition to the university minimum undergraduate admission requirements.)

   None
9. **Keywords**
List all keywords used to search for this program. Keywords should be specific to the proposed program.

10. **Advising Committee Code**
List the existing advising committee code to be associated with this degree. UGTB01

*Note: If a new advising committee needs to be created, please complete the following form: Proposal to create an undergraduate advising committee*

11. **First Required Math Course**
List the first math course required in the major map. MAT 117

12. **WUE Eligible:**
Has a request been submitted to the Provost by the Dean to consider this degree program as eligible for WUE? No

*Note: No action will be taken during the implementation process with regards to WUE until approval is received from the Provost.*

13. **Math Intensity:**
   a. List the highest math course required on the major map. (This will not appear on Degree Search.) MAT 211
   b. What is the math intensity as indicated by the highest math required on the major map? Math intensity categorization can be found here: [https://catalog.asu.edu/mathintensity](https://catalog.asu.edu/mathintensity) Moderate

14. **CIP codes**
Identify CIP codes that should be displayed on Degree Search. CIP codes can be found at: [http://www.onetonline.org/crosswalk/CIP/](http://www.onetonline.org/crosswalk/CIP/).

<table>

Dr. Marlene Tromp, Vice Provost, ASU West
Dean, New College of Interdisciplinary Arts and Sciences
ASU West

Dear Marlene:

Attached please find the Proposal to establish a new B.S. degree in International Trade.

Dr. Joe Carter, Cheri Roberts, and I prepared this proposal. The major map for the degree was approved by the Thunderbird School of Global Management Curriculum Committee.

We are excited about the new opportunities this will provide for students. We appreciate your support of this proposal and ask that you forward it for further approval.

Best wishes,

Roy C. Nelson, Ph.D.
Associate Professor
Academic Director of Thunderbird Undergraduate Programs

Allen Morrison
CEO and DG
Thunderbird School of Global Management
The School of Politics and Global Studies supports the creation of an undergraduate International Trade BS degree program proposed by Thunderbird School of Global Management. The proposed TGM 430 International Trade and Regional Economic Agreements offered at the West campus limited to Thunderbird undergraduate students does not conflict with courses offered the SPGS. We look forward to working with The Thunderbird School to support this new degree program.

Thanks,
Rick

Hi Roy,

No problem from our end. Thanks for checking with us.

Best,

Kay

Subject: Impact Statement on B.S. in International Trade degree

Kay,

Attached please find the final Major Map for the B.S. in International Trade degree.

You have already provided us with an emailed impact statement on TGM 310, "Supply Chain Operations for Global Organizations," as well as an impact statement about ECN 306 (taught by W.P. Carey Faculty - stating that adding our students to that course, starting in Fall 2018, would not have an adverse impact on that course).

My understanding from Stacey Kimbell is that we now also need an impact statement from W.P. Carey about the overall B.S. in International Trade degree.

Is it possible that you can also provide an impact statement on the overall degree?

Thank you very much for all your help.

Best wishes,
