

This template is to be used for proposed disestablishments included on the Academic Plan and for which the unit has received specific written approval from the Office of the University Provost to proceed with internal proposal development and review. This proposal template should be completed and submitted by the Dean's Office to the Office of the University Provost [mailto:curriculumplanning@asu.edu]. The disestablishment **may not** be implemented until the Office of the University Provost notifies the academic unit that the disestablishment proposal has completed the approval process.

**UNIT AND PROGRAM INFORMATION**

**College/School/Institute:** Ira A. Fulton Schools of Engineering  
**Department/Division/School:** School of Sustainable Engineering and the Built Environment

**Existing Program Information**

**Program Type:** Concentration **Academic Level:** Undergraduate  
**Degree Type:** BSE-Bachelor of Science in Engineering *If other specify*  
**Name:** Civil Engineering **Concentration** (Environmental Engineering)

**Plan code(s) for the program:**

If this is a degree program that has multiple concentrations, list all program names and plan codes impacted. ESCEEBSE

**Implementation information:** Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean's Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation "This program is no longer accepting applications," until the approved effective date of the disestablishment.

**Requested effective date:** 2017-18

**Briefly describe the rationale for disestablishment:**

A new BSE in Environmental Engineering program has been established and this concentration is no longer needed. The new program will allow greater depth and focus in the key fields of Environmental Engineering including environmental processes; air, land and water systems engineering; environmental chemistry and microbiology; and engineering ethics and risk analysis.

**Impact on other existing programs:**

May include availability of course content for students in other majors who may need it; other. None

**Impact on current students:**

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

Estimated number of students is left in the program is 140. Last anticipated date to graduate would be spring 2021. Current students will be allowed to graduate under the BSE in Civil Engineering (Environmental Engineering) concentration. However, they will be contacted via email and advising appointments to discuss the option of moving to the new BSE in Environmental Engineering (ESEVEBSE) program.

**Applications:**

What term should applications close? If this change should be made immediately upon approval, please indicate this. Please note that the program will remain on Degree Search until such a time that no students remain enrolled in the program. Spring 18

**Current applicants:**

Describe actions that will be taken regarding admitted students or students who have applied to this program? If current applicants should be moved to a new program, please indicate the plan code of that program.

2017 applicants and recent admits to the BSE in Civil Engineering (Environmental Engineering) concentration will be contacted via email and/or orientation and will be given the option to move to the new BSE in Environmental Engineering (ESEVEBSE) program.

**Additional information:**

Provide any relevant information not required above that will assist in evaluating the proposal.
