TSMGMSTECH

Implementation information: Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean’s Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation “This program is no longer accepting applications,” until the approved effective date of the disestablishment.

Requested effective date: 2018-19

Briefly describe the rationale for disestablishment:
This concentration has been replaced with the MS in Environmental and Resource Management, which better aligns the graduate program with demand from prospective students and industry.

Impact on other existing programs:
May include availability of course content for students in other majors who may need it; other.
This disestablishment will not have an impact on any other majors in FSE or ASU
Impact on current students:
Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

There are currently 8 students enrolled in this program. They will be allowed to complete the program and we anticipate all will complete their requirements as of AY 2018-2019.

Applications:
What term should applications close? If this change should be made immediately upon approval, please indicate this. Please note that the program will remain on Degree Search until such a time that no students remain enrolled in the program.

Immediately

Current applicants:
Describe actions that will be taken regarding admitted students or students who have applied to this program? If current applicants should be moved to a new program, please indicate the plan code of that program.

Students should be moved to ESERMMS - Environmental and Resource Management

Additional information:
Provide any relevant information not required above that will assist in evaluating the proposal.
