

The completed and signed proposal should be submitted by the Dean's Office to: curriculumplanning@asu.edu. Before academic units can advertise undergraduate certificates or include them in their offerings as described in the university catalogs, they must be recommended for approval by the Senate Curriculum and Academic Programs Committee and the University Senate, and be approved by the Office of the University Provost.

Definition and minimum requirements:

These are the minimum requirements for approval. Individual undergraduate certificates may have additional requirements.

An undergraduate certificate is a programmatic or linked series of courses from a single field or one that crosses disciplinary boundaries and may be free-standing or affiliated with a degree program. The certificate provides a structured and focused set of courses that can be used to enhance a student's baccalaureate experience or professional development.

An undergraduate certificate program:

- Requires a minimum of 15 semester hours of which at least 12 semester hours must be upper division
- Requires a minimum grade of "C" or better for all upper division courses
- Consists of courses that must directly relate in whole or large part to the purpose of the certificate. Example: Geographic area certificates must include only courses specific to the title of the certificate, other than a non-English language
- Is cross disciplinary; or,
 - Certified by a professional or accredited organization/governmental agency; or,
 - Clearly leads to advanced specialization in a field; or,
 - Is granted to a program that does not currently have a major

College/School/Institute: College of Liberal Arts and Sciences
Department/Division/School: School of Politics and Global Studies
Proposed Certificate Name: Political Economy
Requested effective Date: 2017-18
Delivery method: On-campus only (ground courses and/or iCourses)

Note: Once students elect a campus or On-line option, students will not be able to move back and forth between the on-campus and the ASU Online options. Approval from the Office of the Provost and Philip Regier (Executive Vice Provost and Dean) is required to offer programs through ASU Online.

1. Overview

A. Provide a brief description of the new certificate.

This certificate is designed to engage students in the studies of global and domestic environments, whether they be in governance organizations, nonprofit agencies or private enterprises that involve an understanding of issues related to the intersection of politics and the economy.

The certificate includes courses in political science, economics and other academic areas that relate to politics and the economy. Students majoring in any subject at the university may be awarded the certificate upon completion of 15 credits (12 credits must be upper-division and nine of these upper-division credits must be taken from the College of Liberal Arts and Sciences).

B. This proposed certificate (check one):

- Is cross disciplinary; or
- Is certified by a professional or accredited organization/governmental agency; or,
- Clearly leads to advanced specialization in a field; or,
- Is granted to a program that does not currently have a major.

C. Why should this be a certificate rather than a concentration or a minor?

ASU has recently approved a Politics and the Economy concentration which is affiliated with the BS degree in Economics (offered via CLAS). ASU already has minors in Economics and Political Science. A minor is usually comprised of courses in one discipline whereas a certificate is an academic program that may combine courses from many disciplines to focus on a topic. The Political Economy certificate examines the intersection between economics and politics. Thus we have developed this certificate to provide students the opportunity to take courses in both political science and economics as well as in related disciplines which focus on salient issues related to the intersection of the disciplines of politics and economics.

D. Affiliation

If the certificate program is affiliated with a degree program, include a brief statement of how it will complement the program. If it is not affiliated with a degree program, incorporate a statement as to how it will provide an opportunity for a student to gain knowledge or skills not already available at ASU.

The Political Economy certificate will serve our undergraduate students who plan to pursue career interests in politics, economics and public policy. The curriculum will provide students the opportunity to establish a baseline knowledge of politics, government, political and economic theory as it relates to political issues and to the economy in general.

ASU has recently approved both a BS in Politics and the Economy and a concentration in Politics and the Economy that is associated with the BS in Economics (CLAS). Students pursuing these academic programs will need to have a significant preparation in calculus and advanced economics. The certificate provides students an option to complete courses that focus on the juncture of politics and economics without the added necessity for knowledge of advanced mathematical and economic concepts.

E. Demand

Explain the need for the new certificate (e.g., market demand, interdisciplinary considerations).

ASU has a new Center for the Study of Economic Liberty that is hiring political scientists and economists to offer advanced study of the juncture between politics and economics. Along with the newly approved BS in Politics and the Economy and the concentration in Politics and the Economy, the Center is creating demand for more undergraduate curriculum related to these subjects. The Political Economy certificate will help fill this interdisciplinary demand.

- F. Projected enrollment
 What are enrollment projections for the first three years?

	1st Year	2nd Year (Yr. 1 continuing + new entering)	3rd Year (Yr. 1 & 2 continuing + new entering)
Number of Students (Headcount)	15	25	75

2. Support and Impact

- A. Faculty governance
 Provide a supporting letter from the chair of the academic unit verifying that the proposed certificate has received faculty approval through appropriate governance procedures in the unit and that the unit has the resources to support the certificate as presented in the proposal, without impacting core program resources.

See letter provided by Dr. Cameron Thies, Director, School of Politics and Global Studies attached.

- B. Other related programs
 Identify other related ASU programs and outline how the new certificate will complement these existing ASU programs. (If applicable, statements of support from potentially-affected academic unit administrators need to be included with this proposal submission.)

We have sought and have received input from Geography and Urban Planning, Public Affairs, Justice Studies, Future of Innovation in Society, and Economics.

- C. Letter(s) of support
 Provide a supporting letter from each college/school dean from which individual courses are taken.

See letters of support provided by the School of Geographical Sciences and Urban Planning the School of Social Transformation, and The School of Public Affairs.

3. Academic Curriculum and Requirements

A. Knowledge, competencies, and skills

List the knowledge, competencies, and skills (learning outcomes) students should have when they complete this proposed certificate. Examples of program learning outcomes can be found at (<http://www.asu.edu/oue/assessment.html>).

Knowledge:

Students with a certificate in Political Economy will be able to explain the intersection of politics and the economy nationally and globally.

Students with a certificate in Political Economy will be able to discuss how other academic areas such as geography, justice studies, public affairs, and urban planning relate to the juncture of politics and the economy.

Students with a certificate in Political Economy will be able to discuss how politics and the economy interface in global and domestic environments.

Competencies:

Students with a certificate in Political Economy will be able to identify where politics and the economy cross for national and global social needs.

Students with a certificate in Political Economy will be able to describe the linkages of politics and the economy.

Students with a certificate in Political Economy will be able to analyze the points of intersection of politics and the economy.

Skills:

Students with the certificate in Political Economy will demonstrate proficiency in critical thinking skills in politics and economics at the national and global levels.

Students with the certificate in Political Economy will demonstrate proficiency in communication skills and be conversant with contemporary topics in politics and the economy.

Students with the certificate in Political Economy will demonstrate proficiency in a cross disciplinary knowledge of politics and the economy.

B. Admissions criteria

List the admissions criteria for the proposed certificate. If they are identical to the admission criteria for the existing major and degree program under which this certificate will be established, please note that here.

None

C. Curricular structure

Provide the curricular structure for this certificate. Be specific in listing required courses and specify the total minimum number of hours required for the certificate.

Provide a brief course description for each new course.

None

Note: All new required courses should be submitted in Curriculum Changemaker and ready for Provost’s Office approval before this certificate is put on Curriculum and Academic Programs Committee (CAPC) agenda.

4. Administration and Resources

A. Administration

How will the proposed certificate be administered (including admissions, student advisement, retention, etc.)?

All aspects of admission, advisement and retention strategies related to success of the Political Economy certificate will be administered by the School of Politics and Global Studies' staff and academic advisement team.

B. Resources

What are the resource implications for the proposed certificate, including any projected budget needs? Will new books, library holdings, equipment, laboratory space and/or personnel be required now or in the future? If multiple units/programs will collaborate in offering this certificate please discuss the resource contribution of each participating program. Letters of support must be included from all academic units that will commit resources to this certificate.

No additional resources are required to implement this certificate.

C. Primary Faculty

List the primary faculty participants regarding this proposed certificate. For interdisciplinary certificates, please include the relevant names of faculty members from across the University.

Name	Title	Area(s) of Specialization as they relate to proposed certificate

School that seem to us to make good sense for students to complete as part of the Related area electives (Part 4). Do you have other courses that are offered frequently that address issues related to politics and the economy that might fit well into Parts 3 or 4? Or, are the ones we identified in any way inappropriate for such a certificate?

Subject: RE: New Certificate in SPGS

Hi Rick –

These look fine (though sometimes we have small classes for PAF 470 and we will skip a semester, and it does have a prerequisite). An alternative (you could list both if you wish), would be PAF 201, Economics and Public Policy. This is a required course, and it is taught often, offline and online. Here is the description:

PAF 201 Economics & Public Policy This course introduces students to the terminology and methods of analysis in micro-economics. In particular, it examines the behavior of individual consumers and firms, with a focus on market failures and the role of government policy in correcting those failures. The course applies micro-economic principles to the distribution of income, policies for eliminating poverty and discrimination, the problems of environmental pollution, and the impact of different market structures on economic activity.

I appreciate being asked about this. Maybe we should also try to sit down (for coffee?) at some point and talk about how we can collaborate more on policy classes and events. I know that you share some interests with what we do here on policy, and on intergovernmental relations.

Best,

Karen

Hello Paul,

I apologize, I've been in meetings almost all day – packing them in, back to back, whenever I parachute into Tempe.

If you need a statement from the SCETL Director: yes, I support the concept and structure of the proposed Certificate in Political Economy.

Not for now, but for later revision, perhaps: I might discuss with Rick and Cameron adding one of the SCETL courses to the list of “Related Electives” in Part Four of the Curriculum; but I don't want to be any kind of delay or roadblock, now or later, in letting this Certificate be reviewed. And, it makes sense to hold off until that course has a permanent number. Right now it uses the “special topics” code, as with all of the SCETL courses in the first-ever set of four that we are offering this fall. It's now “CEL 394. Leadership 303: Capitalism and Great Economic Debates.” The full course description would suggest how it fits with this Certificate.

With best regards,

Paul,

Would you be willing to take a look (quick if you could) at the certificate coming out of Political Science and Economics? What we need to keep the bureaucracy moving is an email statement by you, sent to me, indicating that you support the new certificate.

Sorry for the short turn around, the Provost's Office has been quite meticulous in its review of our new degree plans.

Certainly if you have any questions or concerns please feel free to raise those as well.

Subject: RE: Proposal to establish a new undergraduate certificate in Political Economy

Dear Paul,

Attached please find provost office review comments regarding the certificate in political economy. Regarding the effective term, the final Senate deadline for the 2016-2017 academic year is tomorrow. Since this requires two readings, we could pursue a spring 2018 effective term for this certificate or fall 2018 if you'd like some time to generate enrollment.

We would like to recommend an impact statement from the Economics Department, and wondered whether it would be appropriate to also include a statement from the School of Civic and Economic Thought and Leadership? Since the school has not developed curriculum yet, I'm not sure that it's an issue, but it may help reduce any questions about the relationship between this certificate and the school.

Thank you!
