

This template is to be used for proposed name changes included on the Academic Plan and for which the unit has received specific written approval from the Office of the University Provost to proceed with internal proposal development and review. A separate proposal must be submitted for each individual name change. The proposal template should be completed and submitted by the Dean's Office to the Office of the University Provost [[mailto: curriculumplanning@asu.edu](mailto:curriculumplanning@asu.edu)]. The name change **may not** be implemented until the Office of the University Provost notifies the academic unit that the name change proposal has completed the approval process.

**College/School/Institute:** Ira A. Fulton Schools of Engineering  
**Department/Division/School:** School of Computing, Informatics and Decision Systems Engineering  
**Proposing Faculty Group (if applicable):** Computer Science, Computer Systems Engineering, Informatics

**Proposal Contact**

**Name:** Allison Curran **Title:** Assistant Director of Academic Services  
**Phone Number:** (480)965-3199 **Email:** Allison.Curran@asu.edu

**Existing Program Information**

<b>Program Type:</b>	Degree	<b>Academic Level:</b>	Graduate
<b>Degree Type:</b> PHD - Doctor of Philosophy	<i>If other specify</i>		
<b>Name:</b> Computer Science	<b>Concentration (if applicable)</b>		(Information Assurance)

**Proposed Program Name**

**Name:** Computer Science **Concentration (if applicable)** (Cybersecurity)

**Plan code(s) for the program:**

If this is a degree program that has multiple concentrations, list all program names and plan codes impacted.  
 ESCSEIAPHD

**Requested effective date:** 2018-19

Select the catalog year for which students can begin applying into this program with the new name.

**Note:**

1. Name changes can only be implemented so as to be effective for a fall semester.
2. All existing and continuing students will be moved to the new name.
3. Students who complete the degree requirements prior to the fall effective date graduate under the old name.

**Briefly describe the proposed change and rationale for the change:**

Industry is not currently recognizing our concentration of Information Assurance for what it is. The industry standard buzz word is now "Cyber Security". Due to this shift in terminology, we are proposing to change our concentration name to cybersecurity. The plan code and requirements for the concentration will remain as is. This name change also aligns with what other universities are calling their concentrations covering similar material. So the change will also allow us to be more competitive with those universities.

**Discuss the impact of this change on current students and/or enrollment:**

Students who complete the requirement prior to the effective date of the change will graduate under the old name. All existing and continuing students will be move to the new name. All affected students were notified of the name change.

<b>DEAN APPROVAL(S)</b>	
<b>This proposal has been approved by all necessary unit and College/School levels of review. I recommend implementation of the proposed name change.</b>

Hi Chris,

Great to hear from you. I am copying Dr. Sandeep Gupta (Director, School of Computing, Informatics and Decision Systems Engineering ) in this email to request his feedback on the MS in Emergency Management and Homeland Security (Cybersecurity Policy and Management).

Along the same lines, we are proposing the name changes listed below and Graduate College asked us to obtain a statement of support from your college. Can you help us with this? I have included the proposals in the attached emails.

**Ira A. Fulton Schools of Engineering**

*School of Computing, Informatics and Decision Systems Engineering*

Name change of a graduate program

From: PHD in Computer Science (Information Assurance)

To: PHD in Computer Science (Cybersecurity)

**Subject:** Impact statement

Hi Sergio! I hope you are doing well!

We have a proposed concentration in Cybersecurity Policy and Management and have been told that we need an impact statement from the Fulton Schools of Engineering. Computing, Informatics and Decision Systems Engineering as you have graduate concentrations in Information Assurance. I was also told that you are a good contact for these : )

I'm attaching our proposal – could you help with the impact statements? Or let me know how we can contact? Grad College needs the statements by April 5<sup>th</sup> in order to be considered for a Fall 2018.

Thank you!!  
Chris
