This template is to be used only by programs that have received specific written approval from the Provost's office to proceed with internal program development and review. The proposal template should be completed in full and submitted to the University Provost's Office [mailto: curriculumplanning@asu.edu]. It must undergo all internal University review and approval steps including those at the unit, college and university levels. A program may not be implemented until the Provost's Office notifies the academic unit that the program may be offered.

1. Purpose and Nature of Program

Provide a brief program description. Include the distinctive features of the program that make it unique.

The School of Civic and Economic Thought and Leadership (SCETL) seeks to prepare civic-minded citizens and leaders through the study of great works and great debates of civic, economic, political, and moral thought, primarily in the Western tradition but also comparatively. The core spirit of this transdisciplinary education is the nexus of the study of classic sources and the study about experiences of leadership and statesmanship to create a program designed to prepare students for both understanding and practicing leadership in 21st century America and a globalized world. Our BS degree program will accommodate students who wish to pursue a particular emphasis on the applied dimensions of the SCETL curriculum, primarily through enhanced training in the areas of statistical analysis of political and economic phenomena.

2. Student Learning Outcomes and Assessment Methods

Assessment Plan

Attach a PDF copy of the assessment plan printed from the University Office of Evaluation and Educational Effectiveness assessment portal demonstrating UOEEE’s approval of your assessment plan for this program. Visit the assessment portal at https://uoeee.asu.edu/assessment-portal or contact uoeee@asu.edu with any questions.

3. Academic Curriculum and Requirements

A. Major Map

Attach a copy of the “proposed” major map for this degree program. If this program will be delivered online as well as in-person, attach a copy of both the major map and the online major map. Instructions on how to create a “proposed major map” in BAMM can be found in the Build a Major Map Training Guide.

F. Concentrations

i. Are any concentrations to be established under this degree program? (No)

ii. If yes, are concentrations required? (Select One)

iii. List courses & additional requirements for the proposed concentration(s)

A. Will a new course prefix (es) be required for this degree program?
(No)

If yes, list prefix name(s) (i.e. ENG- English):

*Note: A request for a New Prefix form must be completed for each new prefix required and submitted with this proposal: New prefix request form.*

B. New Courses Required for Proposed Degree Program
List all new courses required for this program, including course prefix, number and course description. No new courses proposed

*Note: New course requests must be submitted electronically via Curriculum ChangeMaker and undergo all internal university review and approval steps including those at the unit, college, and university levels.*

5. Program Need

Explain why the university needs to offer this program (include target audience and market).

The BS degree will provide students interested in the subject matter and content of the school’s core curriculum with additional quantitative and empirical training necessary for specialized research and employment in the fields of politics and economics. It will provide the tools necessary to compete in job markets that require special quantitative and empirical competencies.

6. Impact on Other Programs

List other academic units that might be impacted by the proposed program and describe the potential impact (e.g., how the implementation of this program might affect student headcount/enrollment, student recruitment, faculty participation, course content, etc. in other programs). Attach letters of collaboration/support from impacted programs.

The two units most likely to be affected by this new degree program are the School of Politics and Global Studies (SPGS) and the History and Philosophy faculties within the School of Historical, Philosophical, and Religious Studies (SHPRS). We expect the School will draw interest from the expanding pool of students in Barrett, The Honors College toward the overlapping set of courses and activities offered by SCETL, SPGS, and SHPRS. We also anticipate some interest in the BS from students and faculty in the W.P. Carey School of Business, but the approach to economics and political economy in the degree will be substantially different from that which is offered in the Economics department and other units in the W. P. Carey School of Business.
7. Projected Enrollment

APPENDIX
OPERATIONAL INFORMATION FOR UNDERGRADUATE PROGRAMS
(This information is used to populate the Degree Search/catalog website.)

1. Program Name (Major): Civic and Economic Thought and Leadership

2. Marketing Description (Optional. 50 words maximum. The marketing description should not repeat content found in the program description)
   Join a new class of leaders in the School of Civic and Economic Thought and Leadership. Learn how to meet the challenges of our times through the study of political and economic thought in class, direct contact with prominent public and academic leaders, and practical experience in dynamic internships.

3. Program Description (150 words maximum)
The BS in civic and economic thought and leadership inspires and prepares future leaders through the transdisciplinary study of political philosophy, economic thought, intellectual history, and American political thought and constitutionalism combined with practical leadership experiences. The degree examines broad, fundamental concepts and questions across human civilization, and the challenges of leadership and statesmanship in the 21st century world. Coursework is augmented by an internship experience, access to world-class scholars and intellectuals in the public affairs and speakers program, and contact with visiting Fellows. The multifaceted perspective of this degree program and comprehensive educational resources prepare students for graduate school, to compete for prestigious graduate scholarships, and for leadership roles in the public and private sectors. The result is a new breed of citizen who is uniquely positioned to address contemporary challenges through a traditional lens.

Re: Revised SCETL UG Program Proposal (BA)

Dear Professor Carrese,

This letter is to confirm support from the School of Historical, Philosophical & Religious Studies for the School of Civic and Economic Thought and Leadership’s revised undergraduate program proposal. Our schools and faculties share many research and teaching interests with regards to history and political philosophy. It is therefore likely that there will be thematic overlaps between our course offerings and that course titles with share similar keywords. However, since our courses will have different course designations (“CEL” for SCETL; and “HST,” “PHI,” and “REL” for SHPRS) that allow for student credit hours to be tracked separately, I do not believe that the proposed SCETL undergraduate program will adversely impact SHPRS. I look forward to working with you and your colleagues to advance the mission of ASU.

Sincerely,

Matthew Delmont

Hello P.F.,

Here is one of the statements of support that you said we needed – from SPGS.

Cameron sent an earlier message to me suggesting that we add a few more POS courses in our electives section for majors, and I agreed to do that. I'll forward that message to Susan Kells, and she can send you an amended file.

With best regards,

Paul

Dear Paul,

I am pleased to support SCETL’s new BA in “Civic and Economic Thought and Leadership.” The degree program looks like it will nicely complement our BA in Political Science. We believe our political science courses that you have incorporated as options for your students are appropriate and will be offered regularly. Best of luck with the new program!

Best,  
Cameron

Ross,

That is correct. We have no objection to the inclusion of any economics elective offering in the proposed SCETL BS degree. Here is the full title for ECN 345: Survey of Environmental and Resource Economics.

In addition, we are excited that you are considering teaching ECN 404 History of Economic Thought.

If you have any questions, please don’t hesitate to contact me.

Jose

P.S. Here is the link to the course catalog that lists existing courses and their prerequisites: www.asu.edu/classes.
Following up on our conversation this afternoon, I understand that Economics is willing for SCETL to include in its B.S. program the following courses as elective offerings:

ECN 331: Economics of the European Union
ECN 345: Survey of Environmental Economics (Jose: what was the full title? I could not find the course)
ECN 355: Economics of Healthcare
ECN 360: Economic Development

Please confirm that this is the case,

Thank you,
Ross
Down the page a bit is the inclusion of the History of Economic Thought course.

The prereqs are not waivable, so the courses will require students to do more than the SPGS courses.
Ross

I stopped by earlier today. Let's talk tomorrow about this if you have some time. I can stop by for a few minutes around 1:30P. Later in the afternoon is feasible, too.

Hi Gustavo,

As I mentioned today, SCETL is putting forward a Bachelor of Science program proposal. I've attached the proposal. The courses I choose to include from ECN were the following:

ECN 304: Current Issues in Economics and Politics [one list of courses includes this; another does not – has it been taken off the list of active courses? If so, I'll delete it]
ECN 331: Comparative Economic Systems
ECN 404: History of Economic Thought
ECN 441: Public Economics
ECN 450: Law and Economics

I'd also welcome suggested additions or deletions fro the list.

Best,
Ross

Hi Susan,
Yes, that will be fine. I apologize. I think I was asked about these courses previously and I did check and thought I responded. I must have only thought it. Sorry for the delay.

Thanks,
Rick

Professor Herrera,

I am writing on behalf of Professor Ross Emmett (email chain below), and Professor Adam Seagrave, Associate Director of SCETL, (both cc’d) to request permission to include the additional POS/SGS courses as required for the proposed Bachelor of Science degree in SCETL:

- POS 301/SGS 305 Empirical Political Inquiry
- POS 401/SGS 401 Political Statistics

We will also include the two courses your UG committee requested we consider: SGS 394 International Development, and SGS 394 Global Markets

Please let us know if you have any questions or need additional information,

Thank you for your consideration.

Best regards,
Hi Ross,
I've now heard back from our undergraduate committee. Yes, SPGS approves of SCETL including the courses you list in your degree plan. The committee suggested that you consider the following two courses as well:

SGS 394 International Development
The course will provide an introduction to the theories underlying international development and the remaining challenges facing academics, researchers, and policymakers in solving issues contributing to global poverty. We begin with an overview of the state of the world, illustrating how indicators of economic growth and well-being are unequally distributed across countries. We conceptualize what are the leading factors believed to drive these patterns and discuss the historical approaches to solving these problems. Particular attention is given to examples of policies and development strategies that either strengthened or weakened economies in the past. The second half of the course details current factors that continue to threaten development, such as poor health and education practices, limitations in agricultural growth and food security, and heightened risk due to climate change. We make reference to new experimental research being tested in the field to shed light on promising interventions to alleviate existing barriers to prosperity.

SGS 394 Global Markets
Knowledge of how and why countries interact with each other economically is crucial to understanding the nuances of global affairs. This course provides students with a toolkit with which to analyze international economic events. We begin with a generic model of how markets work, then show how it can be extended to develop useful insights in global markets for goods and foreign exchange. The models will help students understand why countries trade, what policies countries use to influence trade, and how to predict who will win or lose from various policy interventions including impacts on the environment and workers. We will apply this analytical framework to understand the emergence and legal structure of international institutions and agreements regulating international trade. Previous coursework in microeconomic principles is helpful, but not required.

Thanks,
Hi Richard,

Haven’t had a chance to introduce myself yet, but I’m a new professor of political economy in SCETL, and the Director of the Center for the Study of Economic Liberty. Be happy to arrange a meeting with you.

Paul Caresse asked me to contact you regarding the courses we’d like to include in the proposal for a Bachelor of Science degree for SCETL.

I’ve attached the basics of the proposal, and have two questions:

a. Could we have permission to include the following:

   POS 348: Do You Want to Build a Nation?
   POS 465: International Organization and Law
   POS 485: Political Economy
   POS 486: International Political Economy

b. And, do you have any suggestions for additions/deletions?

Best,
Ross Emmett
