

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

This form should be used for academic units wishing to propose a new concentration for existing graduate degrees. A concentration is a subspecialty within a degree and major. It indicates the fulfillment of a designated, specialized course of study, which qualifies the student with skills and training in one highly concentrated area of the major. Concentrations are formally-recognized educational designations (including the assignment of a university plan code for reporting/record-keeping purposes and appearance on the ASU transcript). Concentrations are distinguished from more informal academic distinctions such as “emphases,” “tracks,” “foci,” “options,” etc.

This proposal template should be completed in full and submitted to the University Provost’s Office [mail to: curriculumplanning@asu.edu]. It must undergo all internal university review and approval steps including those at the unit, college, and university levels. A program **may not** be implemented until the Provost’s Office notifies the academic unit that the program may be offered.

GRADUATE CONCENTRATION

College/School:	Thunderbird School of Global Management
<i>Note: Program ownership is coded at the College/School level first and may not be a center, department or division apart from it.</i>

DEAN APPROVAL(S)

This proposal has been approved by all necessary unit and college/school levels of review, and the college/school(s) has the resources to offer this degree program. I recommend implementation of the proposed concentration.

Note: An electronic signature, an email from the dean or dean's designee, or a PDF of the signed signature page is acceptable.

College/School/Division Dean name: Sanjeev Khagram

Signature:

Date: 1/25/2019

Please note: Proposals for new concentrations also require the review and recommendation of approval from the University Graduate Council, Curriculum and Academic Programs Committee (CAPC), the Academic Senate (Information item only), and the Office of the Provost before they can be put into operation.

The final approval notification will come from the Office of the Provost.

1. OVERVIEW

Provide a brief description (*no more than 150 words*) of the new concentration (including the focus of the new concentration, relationship to other concentrations within this degree program, etc.).

The Master of Global Management (MGM) in Global Management, concentration in Sustainability Solutions allows Thunderbird students who are pursuing a Master of Global Management to take courses in the School of Sustainability's Master of Sustainability Solutions degree program. Through a collaborative sequence of courses offered in partnership with the School of Sustainability, students will be able to gain the skills needed to work in organizations that value sustainable solutions to global and local problems.

2. IMPACT ASSESSMENT

- A. Explain the unit's need for the new concentration** (e.g., market demand, research base, direction of the discipline, and interdisciplinary considerations). How will the new concentration complement the existing degree program, including enrollment, national ranking, etc.?

Research shows that over 40 percent of executives want to align their company's goals with sustainability principles. In the same survey, chief executive officers identified sustainability as a top priority (McKinsey, 2014). Governments are also increasingly recognizing the importance of sustainability. This has led the United Nations to outline sustainable development goals for 2030. As sustainability gains more traction, knowledge in this area will become increasingly attractive to employers. Thunderbird has designed the Sustainability Solutions concentration to prepare students for these new organizational norms.

The target audience for the concentration are students interested in complementing their global management education with expertise in sustainability.

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

- B. Please identify other related ASU programs and describe how the new concentration will complement these existing ASU programs?** If applicable, statements of support from affected academic unit administrators should be included with this proposal submission.

Thunderbird has worked closely with the School of Sustainability to develop this concentration. Thunderbird students pursuing this concentration will take courses with students in the MSUS in Sustainability Solutions, resulting in higher demand for the MSUS courses. A copy of some of our correspondence has been attached in Appendix III.

In the development of this concentration, Thunderbird also reached out to the School for the Future of Innovation in Society, the College of Liberal Arts and Sciences, the Watts College of Public Service and Community Solutions, W.P. Carey School of Business, among others, and all have expressed their support for this concentration. As ASU as a whole continues to work toward the design aspiration to “Engage Globally,” every college will need to find its own niche in that space while being collaborative and supportive. The MGM in Global Management, concentration in Sustainability Solutions complements the other globally-focused degree and certificate programs by adding additional specialized cross-training in sustainability and the fundamentals of global management.

(Impact Statements can be found in Appendix III.)

- C. Is this an interdisciplinary concentration?** If yes, please address the relationship of the proposed concentration to other existing degree programs and any parallel or similar concentrations in those degree programs. (Please include relevant Memoranda of Understanding regarding this interdisciplinary concentration from all applicable academic units.)

This concentration is interdisciplinary. Students will enroll in classes at Thunderbird and at the School of Sustainability. The global business courses will be taught at Thunderbird School of Global Management and the concentration courses in Sustainability Solutions will be taught at the School of Sustainability.

3. STUDENT LEARNING OUTCOMES AND ASSESSMENT

Attach a PDF copy of the assessment plan printed from the University Office of Evaluation and Educational Effectiveness assessment portal demonstrating UOECE’s approval of your assessment plan for this program. Visit the assessment portal at <https://uoeee.asu.edu/assessment-portal> or contact uoeee@asu.edu with any questions.

(See Appendix II).

4. CURRICULAR STRUCTURE

Please ensure that all *new core* course proposals have been submitted to the Provost’s office through the Curriculum ChangeMaker online course proposal submission system before this initiative is put on the University Graduate Council and CAPC agendas.

A. Please describe the culminating experience(s) required for completion of the existing degree and major, and the proposed concentration (e.g., thesis, dissertation, comprehensive exams, capstone course, portfolio, applied project).

Capstone Course - TGM 597 Thunderbird Integrative Experience - Provides a capstone experience that integrates content from several business areas including strategy, finance, cross-cultural communication, supply chains, leadership, operations, and accounting. May take the form of an integrative business computer simulation or a seminar drawing on faculty from a variety of business areas to highlight key issues in those areas.

B. Please describe any other requirements for completion of the existing degree and major, and the proposed concentration (e.g., internships, clinical requirements, field studies, foreign language exam etc.).

Foreign Language as a Curriculum Requirement (any language)

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

Proficiency in a second language is required for graduation from the MGM degree. Students whose native language is not English who meet the admission requirements for the MGM program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an Oral Proficiency Interview (OPI) administered by a 3rd party vendor OR successfully complete 6 hours of 400 level or higher of foreign language coursework as part of the program electives

5. COMPREHENSIVE EXAMS

(Please choose what is appropriate for the degree type selected)

A. Master's Comprehensive Exam (when applicable), please select from the appropriate option.

N/A

6. COURSES

A. **New Courses Required for Proposed Program:** Provide course prefix, number, title, credit hours and brief description for any new courses required for this program.

TGM 515 Navigating Global and Regional Business Environments (3 Credits)

Globalization has dramatically expanded opportunities for international trade, investment, and economic development, but potential trade disputes, international financial crises, political risks, international environmental regulations and ethical dilemmas in global business have also emerged. The first part of the course develops analytical tools for understanding the rapidly changing and dynamic global business environment, especially in the era of the 4th Industrial Revolution. With these tools, managers are better prepared to manage risks and take advantage of opportunities in the global economy. The second part deals with the regional business environment. The course begins with a brief geographical, demographic and cultural overview of the region, and develops tools for analysis useful to assessing the Latin American business environment. While the emphasis is Latin America, the same tools could be applied to any region of the world.

TGM 557 Global Data and Marketing Analytics (3 Credits)

Global companies are embracing digital technologies to better understand their customers' journey and subsequent word-of-mouth discussions consumers have about their product online. This course is about understanding how multinational organizations make strategic use of Big Data to gain a competitive advantage in the global economy. It delves into the understanding of global data, choosing whether to enter a foreign market, how to evaluate different foreign markets, the best methods for entering different markets, the market research design process, understanding consumer and B2B customer behavior, and ethical issues encountered in global marketing.

TGM 517 Global Accounting and Financial Management (3 Credits)

Two-part course covering global accounting and global financial management. The first section covers financial accounting from a global perspective. Students have an opportunity to learn how to develop and use financial accounting information for external decision-making purposes. The second section equips students with the tools necessary to make strategic financing and investment decisions for value creation in a competitive global environment.

TGM 586 Global Entrepreneurship and Sustainable Business (3 Credits)

Presents an overview of entrepreneurship and sustainable business. Involves acquiring a basic understanding of both the global entrepreneurship space and the sustainable business space. Students become familiar with the definitions applicable to these two topics, the basic place and role of these two domains in the global economy, and the significance of the two domains in the creation of jobs and sustainable economic activity.

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

SOS 508 Fundamentals of Sustainability (3 Credits)

Graduate level course that covers sustainability research and approaches. It covers important concepts in sustainability, including systems thinking, strategic thinking, social-environmental-technological systems, governance, future thinking, and normative concerns.

SOS 509 Solving Sustainability Problems (3 Credits)

Graduate level course that presents methods on how to identify and analyze sustainability problems and how to develop interventions and strategies that can solve and mitigate sustainability problems. It introduces integrated frameworks for sustainability problem solving, which is applicable to all sustainability-related professions.

SOS 548 Transformational Sustainability Entrepreneurship (3 Credits)

This course familiarizes students with concepts and examples of sustainable entrepreneurial models that are radically different from conventional business models. With a focus on small- and medium-sized organizations, students will learn about structure and function of sustainability-oriented B-corporations, cooperatives, non-profit organizations, alternative business incubators, impact investment companies, and other models.

7. ADMINISTRATION AND RESOURCES

- A. Administration:** How will the proposed concentration be administered (including recommendations for admissions, student advisement, retention etc.)? Describe the administering body in detail, especially if the proposed concentration is part of a larger interdisciplinary initiative. How will the graduate support staffing needs for this proposed concentration program be met?

Professor Lena Booth, the Associate Dean of Academic Programs at Thunderbird, will oversee admission, retention, and the overall program. In consultation with leadership at the School of Sustainability, Thunderbird will review applications, make admissions recommendations, and track enrollment and retention. Students will be assigned academic success specialists at Thunderbird for advisement.

- B. Projected Enrollment:** How many students will be admitted immediately following final approval of the concentration? What are enrollment projections for the next three years?

3-YEAR PROJECTED ANNUAL ENROLLMENT			
Please utilize the following tabular format	1 st Year	2 nd Year (Yr. 1 continuing + new entering)	3 rd Year (Yr. 1 & 2 continuing + new entering)
Number of Students in concentration (Headcount)	10	20	30

- C. Resource requirements needed to launch and sustain the program:** Describe any new resources required for this concentration's success such as new staff, new facilities, new library resources, new technology resources, etc. and include projected budget needs. If multiple units/programs will collaborate in offering this concentration, please discuss the resource contribution of each participating program. Letters of support must be included from all academic units that will commit resources to this concentration.

No new resources required

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

D. Current Faculty: Complete the table below for all current faculty members who will teach in the program.

Name	Rank	Highest Degree	Area of Specialization/Expertise	Estimated Level of Involvement
Lena Booth	Associate Professor	Ph.D.	Finance	10%
Nicole Darnall	Associate Professor	Ph.D.	Sustainability	20% (SOS 545)

APPENDIX I

OPERATIONAL INFORMATION FOR GRADUATE PROGRAMS

(This information is used to populate the [Graduate Programs Search](#)/catalog website.)

1. **Proposed name of concentration:** Sustainability Solutions

2. **Marketing description** (*Optional - 50 words maximum. The marketing description should not repeat content found in the program description.*)

Joining Thunderbird's #1 ranked Master in Global Management degree (Times Higher Education/Wall Street Journal, 2019) with the Nation's first school of sustainability, the MGM in Global Management, concentration in Sustainability Solutions prepares students with the skills needed to work in organizations that value sustainable solutions to solve global and local problems.

3. **Provide a brief program description** (*Catalog type (i.e. will appear in Degree Search) – no more than 150 words. Do not include any admission or curriculum information*)

As sustainability gains more traction, knowledge in this area will become increasingly attractive to employers. Thunderbird has designed the MGM in Global Management, concentration in Sustainability Solutions to prepare students for these new organizational norms. Students will assess an organization's sustainability options and propose how these options create value to the organization. Students will specialize in organizational change, organizational sustainability, systems thinking, and strategic thinking.

This program is perfect for students who are interested in complementing their global management education with expertise in sustainability.

4. **Delivery/Campus Information Options:** On-campus only (ground courses and iCourses)

5. **Campus(es) where program will be offered:**

ASU Online curriculum consists of courses that have no face-to-face content. iCourses are online courses for students in on-campus programs. iCourses may be included in a program, but may not comprise the entirety of a program. On-campus programs must have some face-to-face content

Note: Office of the Provost approval is needed for ASU Online campus options.

ASU Online only (all courses online and managed by ASU Online)

All other campus or location options (please select all that apply):

Downtown Phoenix Polytechnic Tempe West Other: _____

Both on-campus and ASU Online* - (check applicable campus(es) from options listed above)

**Note: Once students elect a campus or Online option, students will not be able to move between the on-campus and the ASU Online options. Approval from the Office of the University Provost and [Philip Regier](#) (Executive Vice Provost and Dean) is required to offer programs through ASU Online. Please complete the ASU Online Offering form in [Curriculum ChangeMaker](#) to begin this request. Prior to completing the online Curriculum ChangeMaker form, please contact EdPlus at asuonline@asu.edu who can provide you with additional information regarding the online request process*

6. **Admission Requirements**

An applicant must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

PROPOSAL TO ESTABLISH A NEW GRADUATE CONCENTRATION

Applicants are required to submit:

1. graduate admission application and application fee
2. official transcripts
3. professional resume
4. two letters of recommendation
5. GRE or GMAT score
6. proof of English proficiency

Additional Application Information

Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

7. Application Review Terms (if applicable session):

Indicate the first term and year in which applications will be opened for admission. Applications will be accepted on a rolling basis after that time.

Note: It is the academic unit's responsibility to display program deadline dates on their website.

Assessment Plan

Outcome 1:	Students will demonstrate enhanced Social Capital.	Edit	Delete
Concepts:	The World Economic Forum reports that empathy and collaboration are two critical abilities for global manager success. These are equally critical for those seeking careers in Global Affairs. These abilities rely on the development of Social Capital. This program is designed to develop a student's Social Capital through field-based action learning, team-based projects, and stretch assignments.	Edit	
Competencies:	Students will have the ability to build sustainable trusting relationships—the basis of Social Capital—with others from diverse parts of the world through development of intercultural empathy, the ability to have interpersonal impact, and to act with diplomacy.	Edit	
Measure/Method 1.1:	The Global Mindset Inventory will be used to assess development in Social Capital. A pre- and post-test will be used to assess change over time and program effect.	Edit	Delete
Performance Criterion 1.1:	At least 75% of the participants will achieve a 0.2 increase (on a five point scale) from pre- to post-test in the area of Social Capital.	Edit	
Measure/Method 1.2:	Graduating students who are surveyed at graduation will evaluate the quality of their program's ability to enhance their Social Capital.	Edit	Delete
Performance Criterion 1.2:	75% of surveyed students will rate the extent to which their program enhanced their Social Capital as "Agree" or "Strongly Agree."	Edit	
Add Measure 3			
Outcome 2:	Students will assess an organization's sustainability options and propose how these options create value to the organization.	Edit	Delete
Concepts:	Organizational change, organizational sustainability	Edit	
Competencies:	Systems thinking, strategic thinking, collaboration	Edit	
Measure/Method 2.1:	Final Professional Client-focused report in core concentration course SOS 545: Organizations, Sustainability & Public Policy	Edit	Delete
Performance Criterion 2.1:	At least 80% of the participants will achieve a B or higher.	Edit	
Measure/Method 2.2:	Synthesis essay on Creating Organizational Change in core concentration course SOS 545: Organizations, Sustainability & Public Policy	Edit	Delete
Performance Criterion 2.2:	At least 80% of the participants will achieve a B or higher.	Edit	

Based on the research done through the Global Mindset Institute, a 0.2 increase for Social Capital and the 1 point increase for Global Citizenship was determined to be practically significant.

Subject: Thunderbird Request for Letters of Support

How are you, David?

The following 15 concentrations for our Master of Global Management (MGM) Program has been approved by the Provost Office. We are in the next steps of submitting the "Proposal to Establish New Graduate Concentration" forms to the Graduate College, then bringing them to the Senate and CAPC. To do that, we are asked to obtain a letter of support from your school. Could you please kindly provide us a letter of support saying you support all of the concentrations listed below, especially those that may be of relevance to your school? (An email indicating so would be sufficient.) The attached document outlines our MGM curriculum requirements and all the concentration course work for the 15 concentrations. Please kindly send us the letter of support by Wednesday, Feb 6, 2019. Please do not hesitate to reach out if you have any questions and concerns. Thanks very much!

Dear Pat,

I know we wanted to get us all together to discuss joint programs : I would still very much like to get this scheduled.

In the meantime however, I would be so grateful if you could send me a letter with your support of our concentrations below. Just a simple few sentences would suffice.

We see these concentrations as just the beginning of joint programming, along with the 4+1s we are setting up with several of the departments in CLAS. There is so much I hope and know we can do together.

With Gratitude, Sanjeev

How are you, Fabio? Hope you had a great weekend!

As you know, our Master of Global Management (MGM) has gone through a major curriculum transformation to integrate Thunderbird into the larger ASU family. We have worked with various colleges at ASU to offer concentrations for our degree. The following 15 concentrations for our MGM Program have been approved by the Provost Office. We are in the next steps of submitting the Proposal to Establish New Graduate Concentration forms to the Graduate College, then bringing them to the Senate and CAPC. To do that, we are asked to obtain a letter of support from your school. Could you please kindly provide us a letter of support saying you support all of the concentrations that may be of relevance to your school such as Global Affairs, Global Health Care Delivery, Sustainability Solutions, or others? The attached document outlines our MGM curriculum requirements and all the concentration course work for the 15 concentrations. Please kindly send us the letter of support by Monday, Jan 28, 2019 if you may. Please do not hesitate to reach out if you have any questions and concerns. Thanks very much!

Subject: RE: Concentration Coursework for MGM in Sustainability Solutions - Time Sensitive

I was able to get agreement on the following courses for the Sustainability Concentration:

SOS 508 Fundamentals of Sustainability (New Course)

Graduate level course that covers sustainability research and approaches. It covers important concepts in sustainability, including systems thinking, strategic thinking, social-environmental-technological systems, governance, future thinking, and normative concerns.

SOS 509 Solving Sustainability Problems (New Course)

Graduate level course that presents methods on how to identify and analyze sustainability problems and how to develop interventions and strategies that can solve and mitigate sustainability problems. It introduces integrated frameworks for sustainability problem solving, which is applicable to all sustainability-related professions.

SOS 514 Human Dimensions of Sustainability

Concepts and definitions of the human dimensions of sustainability; the role of attitudes and values in shaping sustainability goals, practices, and programs; the diversity of values and socio-cultural contexts relating to sustainability; bottom-up and top-down sustainable policy development, social data collection methodologies.

SOS 545 Orgs, Sustain & Public Policy

Sustainability concerns are fast becoming a strategic issue for organizations in all sectors. In the last ten years, numerous organizations have completely redefined their business strategies in line with principles of sustainability by balancing the requirements for economic development, environmental quality and social justice, and governments worldwide are developing programs and policies that encourage these activities. Explores the connections between organization strategy--especially within the private sector, sustainability and public policy. Through a combination of practical cases, readings and lectures, class sessions engage students in discussions aimed at developing sustainability assessment models. Additionally, students apply new strategy tools that incorporate principles of proactive environmental management and social responsibility designed to enhance the public good.

SOS 548 (New Course, was SOS 598 Special Topic: Transformation Sust Entrepreneurship)

This course familiarizes students with concepts and examples of sustainable entrepreneurial models that are radically different from conventional business models. With a focus on small- and medium-sized organizations, students will learn about structure and function of sustainability-oriented B-corporations, cooperatives, non-profit organizations, alternative business incubators, impact investment companies, and other models.

Thanks Caroline. We were given the deadline of Jan 21 by Grad College in order to have time to implement it this coming fall. Since this has to be reviewed by Senate and CAPC after Grad College, I was wondering if you would like to just give us a list of courses right now, and we can say students can choose any 4 from that list (provided pre-requisites are met). If your faculty decide certain courses have to be core courses later, we can make a program change as that is a lot easier (fewer bodies have to approve). Please let me know what you think of the idea.

Sanjeev,

The MGM looks exciting.

CISA supports all of the proposed MGM concentrations because we are confident that there is sufficient market demand for these MGM degrees as well as CISA's MS in Organizational Leadership degree—and ASU's other graduate programs in leadership.

Best wishes for much success with the MGM,

Hi Sanjeev,

Happy to do this – would love however to have a joint program with you ...

- Health Innovation (we have a great Master of Health Innovation degree option)
- Global Nursing & Healthcare Leadership (would love for this to be part of a dual degree MGM-to our DNP (Doctor of Nursing Practice in Executive Healthcare Leadership))

And we have a new MS in Aging – might be way cool to connect on that one as well....

Best
Judy

I'm including Craig in this email as he is our globalization champion for the college....

Looping in my amazing Associate Dean Lena Booth on this. We are not 100% sure why, but this is one of the requests we got from the Grad College. Given the transdisciplinary breadth of our new curriculum, they may also ask for an impact statement from you at the Teachers College for our concentrations. We'd love to see a concentration in intl educational leadership and management.

Dear Sanjeev,

Thanks very much for the note and sorry for the lag in responding. FSE is supportive of these concentrations.

I would also note that as these move forward there are a few concentrations where there might be possibilities for us to include some FSE courses (if appropriate). Realize that conversation can be had in due course though if that were of interest I would look forward to discussing. Those concentrations are,

- MGM in Global Entrepreneurship (Thunderbird)
- MGM in Global Healthcare Delivery (School of Health Solutions)
- MGM in Global Digital Transformation (Thunderbird)

Thanks,

(NEW GRADUATE INITIATIVES)

PROPOSAL PROCEDURES CHECKLIST

Academic units should adhere to the following procedures when requesting new curricular initiatives (degrees, concentrations or certificates).

Obtain the required approval from the Office of the Provost to move the initiative forward for internal ASU governance reviews/approvals. Please see the academic strategic plan website at: <https://provost.asu.edu/curriculum-development>.

Submit any new courses that will be required for the new curricular program to the Curriculum ChangeMaker online course approval system for review and approval.

- Additional information can be found at the Provost's Office Curriculum Development website: [Courses link](#)
- For questions regarding proposing new courses, send an email to: courses@asu.edu

Prepare the applicable proposal template and operational appendix for the proposed initiative.

Obtain letters or memos of support or collaboration (if applicable).

- When resources (faculty or courses) from another academic unit will be utilized
- When other academic units may be impacted by the proposed program request
- if the program will have an online delivery option support will be required from the Provost's office and ASU Online. *(Please complete the ASU Online Offering form in [Curriculum ChangeMaker](#) to begin this request.)*

Obtain the internal reviews/approvals of the academic unit.

- Internal faculty governance review committee(s)
- academic unit head (e.g. Department Chair or School Director)
- academic unit Dean (will submit approved proposal to the curriculumplanning@asu.edu email account for further ASU internal governance reviews (as applicable, University Graduate Council, CAPC and Senate)

Additional Recommendations

All new graduate programs require specific processes and procedures to maintain a successful degree program. Below are items that the Graduate College strongly recommends that academic units establish after the program is approved for implementation.

Establish satisfactory academic progress policies, processes and guidelines – Check within the proposing academic unit and/or college to see if there are existing academic progress policies and processes in place. If none have been established, please go to http://graduate.asu.edu/faculty_staff/policies and scroll down to the **academic progress review and remediation processes** (for faculty and staff) section to locate the reference tool and samples for establishing these procedures.

Establish a Graduate Student Handbook for the new degree program – Students need to know the specific requirements and milestones they must meet throughout their degree program. A Graduate Student Handbook provided to students when they are admitted to the degree program and published on the website for the new degree gives students this information. Include in the handbook the unit/college satisfactory academic progress policies, current degree program requirements (outlined in the approved proposal) and provide a link to the Graduate Policies and Procedures website. Please go to http://graduate.asu.edu/faculty_staff/policies to access Graduate Policies and Procedures.
