

This template is to be used for proposed disestablishments included on the Academic Plan and for which the unit has received specific written approval from the Office of the University Provost to proceed with internal proposal development and review. This proposal template should be completed and submitted by the Dean’s Office to the Office of the University Provost [mailto:curriculumplanning@asu.edu]. The disestablishment **may not** be implemented until the Office of the University Provost notifies the academic unit that the disestablishment proposal has completed the approval process.

UNIT AND PROGRAM INFORMATION

College/School/Institute: College of Health Solutions

Department/Division/School:

Proposing Faculty Group
(if applicable):

Proposal Contact

Name: Simin Levinson **Title:** Clinical Associate Professor
Phone number: (602) 496-1865 **Email:** simin.levinson@asu.edu

Existing Program Information

Program Type: Concentration **Academic Level:** Undergraduate
Degree Type: BS-Bachelor of Science *If other specify*
Name: Nutrition **Concentration (if applicable)** (Human Nutrition)

Plan code(s) for the program:

If this is a degree program that has multiple concentrations, list all program names and plan codes impacted.
Nutrition (Dietetics) plan code ECNTRDBS
Nutrition (Human Nutrition) plan code ECNTRHBS

Implementation information: Degree Search is our official record of the academic catalog. Therefore, all academic programs which are active and have students enrolled are required to be listed on Degree Search. Upon request by the Dean's Office, an academic program can be removed from the undergraduate or graduate application; however, the program will remain in degree search with the notation “This program is no longer accepting applications,” until the approved effective date of the disestablishment.

Requested effective date: 2020-21

Briefly describe the rationale for disestablishment:

This degree offers important content but is outdated in design. We propose to reposition and repackage the current curricula and add new courses and opportunities as part of the renamed BS in Nutritional Science degree. The new program will provide enhanced curricular offerings and experiential learning opportunities for students that are more directly tied to career connections than the existing Human Nutrition concentration.

Impact on other existing programs:

May include availability of course content for students in other majors who may need it; other.
The courses in the Human Nutrition concentration will be offered in the BS Nutritional Science degree program as required or elective courses.

Impact on current students:

Estimate number of students still enrolled; anticipated date of last graduates; arrangements for continuing students and students in articulated transfer pathways (e.g., MAPP, TAG).

56 were enrolled in the BS in Nutrition (Human Nutrition) program as of Fall 2019. Anticipated date of last graduation is Spring 2023. Continuing students and students in articulated transfer pathways will be allowed to complete their degree or given the opportunity to change their major to the new BS in Nutritional Science program.

Applications:

What term should applications close? If this change should be made immediately upon approval, please indicate this. Please note that the program will remain on Degree Search until such a time that no students remain enrolled in the program.

Applications should close by Fall 2020, at which time BS Nutritional Science will be offered.

Current applicants:

Describe actions that will be taken regarding admitted students or students who have applied to this program? If current applicants should be moved to a new program, please indicate the plan code of that program.

Current students will be allowed to complete their current degree or given the opportunity to change their major to the new Nutritional Science degree.

Additional information:

Provide any relevant information not required above that will assist in evaluating the proposal.

Enrollment may be declining due to outdated curricular design and lack of experiential opportunities for students. Within the proposed BS in Nutritional Science program, the curricular foundation of this Human Nutrition concentration will be redesigned with stronger appeal for students and enhanced career opportunities. Indicators are provided by the market needs analysis of the proposed Nutritional Science program.

DEAN APPROVAL(S)

This proposal has been approved by all necessary unit and College/School levels of review. I recommend implementation of the proposed name change.

College/School/Division Dean name: Deborah Helitzer

Signature _____ **Date:** ____ / ____ /20

College/School/Division Dean name:

(if more than one college involved)

Signature _____ **Date:** ____ / ____ /20

Note: An electronic signature, an email from the dean or dean's designee, or a PDF of the signed signature page is acceptable.

University Approval(s)

Vice Provost for Graduate Education Name: _____

Signature: _____ **Date:** ____ / ____ /20

Vice Provost for Undergraduate Education Name: _____

Signature: _____ **Date:** ____ / ____ /20
