College of Integrative Sciences and Arts (CISA)
formerly College of Letters and Sciences

Purpose and Goals
The College of Integrative Sciences and Arts is home to a diverse number of degree programs, as well as many programs focused on students in transition. Please review the information below to learn which students may be good candidates for CISA academic programs.

Exploratory Tracks
The College of Integrative Sciences and Arts offers four Exploratory Tracks that help guide students towards majors and careers that best fit their skills, abilities, values and interests. Exploratory advisors have a general knowledge of all ASU majors and a good foundation in university policies. They also have the ability to help a student create a realistic plan to improve overall academic performance while making progress towards multiple degrees of interest.

- Exploratory Health and Life Sciences
- Exploratory Humanities, Fine Arts and Design
- Exploratory Social Behavioral Sciences
- Exploratory Engineering, Math, Technology, and Physical Science

College of Integrative Sciences and Arts Declared Majors

The College of Integrative Sciences and Arts offers a diverse range majors at the Polytechnic, Downtown Phoenix, Tempe, Online and Extended campuses. Many CISA majors are traditional degrees, but there are several that work exceptionally well for students who cannot continue in their current major and have a high number of hours completed. Those majors that are best suited as degree completion programs include Liberal Studies, Interdisciplinary Studies and General Studies. Please review CISA majors here
