Rationale and Objectives

The contemporary "culture" of the United States involves the complex interplay of many different cultures that exist side by side in various states of harmony and conflict. The history of the United States involves the experiences not only of different groups of European immigrants and their descendants but also of diverse groups, including, but not limited to, American Indians, Latinos, African Americans, and Asian Americans—all of whom played significant roles in the development of contemporary culture and together shape the future of the United States. At the same time, the recognition that gender, class, and religious differences cut across all distinctions of race and ethnicity offers an even richer variety of perspectives from which to view ourselves. Awareness of our cultural diversity and its multiple sources can illuminate our collective past, present, and future and can help us to achieve greater mutual understanding and respect.

The objective of the Cultural Diversity requirement is to promote awareness and appreciation of cultural diversity within the contemporary United States through the study of the cultural, social, or scientific contributions of women and minority groups, examination of their experiences in the U.S., or exploration of successful or unsuccessful interactions between and among cultural groups.

You are responsible for knowing the Student Code of Conduct and Student Academic Integrity Policy.

Expectations of Students
- **Come to class prepared.** It is your responsibility to know which assignments and readings are due and to come to class having read or completed written assignments. (please see Late Policy)
• **Turn in assignments on time.** Do not get in the habit of turning in assignments late or not at all. I have seen an increase of late or missing assignments. It is your responsibility as a student to turn in assignments on time. Do not let this become a habit you take into the workplace.

• **Ask for help.** If you are having academic difficulty, ask for help early. Do not wait until the end of semester, by that time it may be too late to take care of the issues or prevent a failing grade.

**Classroom Etiquette**

• **Cell Phones.** I do not allow or tolerate the use of cell phones during class. Turn off cell phone or ringer during class. If you are expecting an emergency call, turn your phone to non-ring/vibrate and take your call outside the classroom with minimal disruption. I do not allow ANY text messaging in class. If you are caught text messaging in class, you will be asked to leave class for that day. Should the problem continue the professor will consider it disruptive and withdraw you from the course.

• **Laptops.** I allow the use of computers in class for note-taking or to look up readings pertaining to class. While in class disable the wi-fi capability. Laptops, or phones should not be used to surfing the web, checking Facebook status (or the like) or email, play a game, or IM. Such uses of a laptop are distracting to you and classmates around you. If you or your classmates often seem distracted by what is on your screen, I will ask you to put the computer away and if it continues you will be asked to leave class for that day. Should the problem persists the professor will consider it disruptive and withdraw you from the course.

• **Recording.** Recording will only be permitted for justified reasons and with explicit written permission from the instructor. Any unauthorized recording or duplication of course materials including but not limited to lectures and handouts without the expressed written consent of the instructor is prohibited. These materials are protected by copyright under Arizona Common Law. If you wish to duplicate materials or tape record for your own use, you must obtain permission from the instructor and dispose of the copy and/or recording at the end of the course.

Although I encourage classroom discussion, remarks and statements that I find offensive and those I perceive to be offensive to other students, such as those that denigrate or dehumanize others will NOT be tolerated.

**Attendance.** Attendance is required. We meet only once a week, which is the equivalent to 2.5 classes. Therefore, missing more than two weeks will negatively impact your grade. It is your responsibility to keep up with readings and papers. In case of an emergency absence, let the professor know as soon as possible, by phone, email, or in-person. In case of death in family, please inform the Student Advocacy Office (965-6547, Student Services Bldg. 263), they will inform all your professors of your absence. I understand ceremonies take place throughout the semester, please let me know ahead of time, if possible. Inform me of any absences due to ceremonies so we may arrange when papers turned in with a minimal penalty.
Disability Accommodations: Qualified students with disabilities who will require disability accommodations in this class are encouraged to make their requests to me at the beginning of the semester either during office hours or by appointment. Note: Prior to receiving disability accommodations, verification of eligibility from the Disability Resource Center (DRC) is required. Disability information is confidential.

Establishing Eligibility for Disability Accommodations: Students who feel they will need disability accommodations in this class but have not registered with the Disability Resource Center (DRC) should contact DRC immediately. Their office is located on the first floor of the University Center Building, Suite 160. DRC staff can also be reached at: 602-496-4321 (V), 602-496-0378 (TTY), and at: DPCDisability-Q@asu.edu. Their hours are 8:00 AM to 5:00 PM, Monday through Friday. Eligibility and documentation policies can be viewed at: http://campus.asu.edu/downtown/drc.

Incompletes. I do not give incompletes, unless unusual or emergency circumstances mitigate. An incomplete is only given if student has completed 2/3 of semester’s work or in emergency circumstances after student has had discussions with professor. I have found that incompletes impede student progress and create more difficulties during completion. If left incomplete, student’s grade becomes an E after a calendar year. Therefore, if any difficulties arise, please come talk to me as soon as possible.

I reserve the right to administer more than the required thesis reviews if I feel the readings are not being completed.

**This syllabus is not written in stone, I reserve the right to change it at any time.
