Arizona State University Criteria Checklist for

GLOBAL AWARENESS [G]

Rationale and Objectives

Human organizations and relationships have evolved from being family and village centered to modern global interdependence. The greatest challenge in the nuclear age is developing and maintaining a global perspective which fosters international cooperation. While the modern world is comprised of politically independent states, people must transcend nationalism and recognize the significant interdependence among peoples of the world. The exposure of students to different cultural systems provides the background of thought necessary to developing a global perspective.

Cultural learning is present in many disciplines. Exposure to perspectives on art, business, engineering, music, and the natural and social sciences that lead to an understanding of the contemporary world supports the view that intercultural interaction has become a daily necessity. The complexity of American society forces people to balance regional and national goals with global concerns. Many of the most serious problems are world issues and require solutions which exhibit mutuality and reciprocity. No longer are hunger, ecology, health care delivery, language planning, information exchanges, economic and social developments, law, technology transfer, philosophy, and the arts solely national concerns; they affect all the people of the world. Survival may be dependent on the ability to generate global solutions to some of the most pressing problems.

The word university, from universitas, implies that knowledge comes from many sources and is not restricted to local, regional, or national perspectives. The Global Awareness Area recognizes the need for an understanding of the values, elements, and social processes of cultures other than the culture of the United States. Learning which recognizes the nature of others cultures and the relationship of America’s cultural system to generic human goals and welfare will help create the multicultural and global perspective necessary for effective interaction in the human community.

Courses which meet the requirement in global awareness are of one or more of the following types: (1) in-depth area studies which are concerned with an examination of culture-specific elements of a region of the world, country, or culture group, (2) the study of contemporary non-English language courses that have a significant cultural component, (3) comparative cultural studies with an emphasis on non-U.S. areas, and (4) in-depth studies of non-U.S. centered cultural interrelationships of global scope such as the global interdependence produced by problems of world ecology, multinational corporations, migration, and the threat of nuclear war.

3. Review Session Project
4. Interview Project
5. Make Your Own Kanji Project

Project (Continued)

6. Shadowing Project is:
   - Saying sounds out loud as you hear them almost immediately, as if you were a shadow.
   - Traditionally, it is used to train simultaneous interpreters.
   - In the early 90’s it attracted researchers of ESL in Japan.
   - In the early 2000’s researchers of JSL explored the possibility of applying this method to Japanese language education.
   - The research shows it is effective in not only improving your listening skills and pronunciation, but also in gaining grammatical accuracy and retaining vocabulary.

7. e-Portfolio Project is:
   - A portfolio is a compilation of your work and projects, such as きくぶん, Interview, Shadowing, and Review Session projects.
   - By compiling them, you keep learning Japanese by expanding, correcting, recording, translating, and transcribing the materials, as well as developing your organizational skills and identifying your own strengths and weaknesses throughout the semester.
   - An important element of this project is to make you focus on your goals for your learning, think about how to achieve your goals, and finally reflect on your achievement.
   - This project will make you responsible for your own learning.
   - We have both hard copy and electronic portions of the portfolio.

Missing classes, tardies and leaving early

Please email for any kind of absences. You will be required to document any excuse. Students who need to be absent from class due to the observance of a religious holiday or to participate in required religious functions must notify the faculty member in writing as far in advance of the holiday/obligation as possible. Students will need to identify the specific holiday or obligatory function to the faculty member. For an excused absence, contact your instructor by email or by phone. You are fully responsible for finding out the homework of the day, obtaining any handouts (it might be a good idea to ask your classmates to get an extra copy for you), and studying for the missed classes to catch up. Three tardies of more than ten minutes late will be counted toward one absence. Leaving the class early will be treated the same way. Often the last five minutes of the class are used for winding down, and important announcements and hand-outs are given. Do not ask your instructor to give a quiz early even when you have to leave class early for some serious reason. If Third Editions are out, they have earlier versions of Yookoso as well. The contents are somewhat the same. Therefore, use them and keep up with the class and do not get behind. Getting behind from the start will haunt you for the rest of the semester. Avoid that situation by all means! The following can be checked out for 7 days.

- Chapter test check sheet will be uploaded.  
- Flashcard sets
- WB for Book 1 second edition, 2 copies
- Interview, Shadowing, and Review Session projects.
- 2nd edition, 2 copies.

Course Reserve FAQs: Go to http://lib.asu.edu/access/reserves/students/faq

Instructor-initiated drop option

Students who do not attend the first week of classes can be dropped from the course at the instructor's discretion. It is the student's responsibility to contact the instructor before the end of the first week of classes if absences during that period cannot be avoided. Students should be aware that non-attendance will not automatically result in their being dropped, even though the instructor has the option of doing so. If you want to drop this course, you must do the job of dropping the course that you registered.

Final Exam

We are ordered by the university to give the final exams on the designated date. Please check your final exam schedule and do not make a plane reservation before or on the day of your final exam. The procedure to take the final exam other than the designated day and time will have to go through the Dean's Office and you need to have legitimate reasons.

What you have to do by tomorrow

Buy the JPN102 Xeroxed supplement right away and bring it tomorrow or your next class. Buy your textbook and workbook of Yookoso volume 1, if you do not have them already. 

Preview C.4 by following the instructions in the detailed schedule.

What to do if you cannot find a textbook to buy or do not have money to buy one until your next pay check

2 copies of Yookoso Vol. 1 (Third Edition) 2 hours reserve, overnight
2 copies of Workbook 1 (Third Edition) 2 hours reserve

Items designated as “overnight” will be due back within one hour of the library’s opening the following day IF when checked out the item’s due time would fall after the library closes.

If Third Editions are out, they have earlier versions of Yookoso as well. The contents are somewhat the same. Therefore, use them and keep up with the class and do not get behind. Getting behind from the start will haunt you for the rest of the semester. Avoid that situation by all means! The following can be checked out for 7 days.

- 2nd edition, 2 copies.

Note: The text appears to be extracted from a Japanese language textbook or reference material, focusing on activities related to shopping, ordering food, and understanding Japanese cultural aspects.
This is a give-and-take project for you and your Hiroshima Shudo University (HSU) pen pals. You are required to exchange two emails written in Japanese and two emails written in English with your pen pal. (Two email messages from you to your pen pal and two replies from your pen pal, all in Japanese. Two email messages from your pen pal and two replies from you, all in English). In addition, you are required to write a letter using the Japanese formal letter format that you are going to learn in Chapter 4.

In order to write your email in Japanese, you need to have an account that enables you to read and write using a Japanese font. Also in order to avoid having mojibake, ASU and HSU students must have the same email system. Therefore, I would like for you to create a Yahoo email account with YAHOO! JAPAN. Go to http://promo.mail.yahoo.co.jp/ and create an account by reading “ヤフーメールアドレスの作り方,” which is under the “Course Document” tab on the BB.

When sending your email, be sure to cc each e-mail to your own address (you may save a draft as well) so that you won’t lose what you composed. If you write more than two e-mails, you will be given up to 2% extra credit, depending on the accuracy (grammar, long vowel words, double consonant words and correct kanji), quality (reasonable length, variety of content) and quantity (the more the better) of your correspondence. (However, you will not get any extra credit by writing more than two English replies.)

These email exchanges and a letter are required to be included in your ePortfolio (and a hard copy Portfolio). You must upload JPEG files of the required number of emails onto your ePortfolio. (Two emails written in Japanese from your to your pen pal, and two replies from your pen pal written in Japanese to you with your English translation.) For your pen pal’s Japanese reply, you need to provide English translations to the best of your ability. You will develop your reading skills by translating your pen pal’s Japanese e-mails.

If you wrote extra emails, submit them in your hard copy Portfolio. Print out with the yahoo email frame so that it shows when you sent and when you received the e-mails. I will not accept them in any other form.)

Lastly, please cc the first email you sent to your Japanese pen pal to sensei’s yahoo account, penpalsensei@yahoo.co.jp This way, I can assist you in case you have any problem sending your email to your pen pal.

Note: When we do not have enough students from Hiroshima Shudo University who come to take courses at American English and Culture Program (AECF) at ASU, some of the JPN102 sections will have to conduct this pen pal project with their classmates.

Go to:  [http://www.asahi.com]

To the right you will see the 便利な機能 button. Click that and then select 天気 from the submenu.

You will see 各地のピンポイント天気情報 with a map of Japan underneath.  Pay attention to the map.  Do you find the four big islands plus Okinawa?  Can you locate, 北海道、本州、四国、九州, and 沖縄?

What?  What did you say?  No 本州?

Okay, but can’t you see とうほく、関、中部、四国, and 国 instead? (Insert the appropriate kanji above the underline for the ふりがな shown underneath the underline.)

Yes, these divisions are normally used for 天気予報. They will be used together with 地方 (region).

For example,

「今日の関東地方のお天気です。まず、東京です。東京は朝のうちは ～おりで，午後一時雨，夕方から雪になる見込みです。」

Note: まず＝first ～のうち＝in the～ ～時＝at one time, for a short while, passing  見込み＝chance

Can you guess the meaning of the sentence above?  Please write your translation.  Please write legibly.

Please type them directory on your ePortfolio site. You will submit the reflection statement on ___月___日 or ___日。Do not forget to date each statement.

The following are sample goals, methods, and reflections.

Overall Goals for the Course:
My overall goal for JPN 102 is to learn more grammar in Japanese so that I can expand what I know how to say when conversing with Japanese people. I want to become very good at speaking and writing Japanese so that I can start a multimedia blog on the internet catering to Japanese and American fans of cosplay. (Date: _______________.)

Reflection: Looking back on the semester, I am very proud of where I am now. I’ve become able to hold longer conversations in Japanese with my friends. I also have a better understanding of Japanese culture and formalities through things like e-mail and letter projects. I hope that I will be able to go to Japan and use the knowledge I have gained in class to the best of my ability. Though I will definitely need to work on practicing more often, I am confident that I am up to the challenge and I look forward to taking JPN201. (Date: _______________.)

Goals and Methods for Tests, Quizzes, and Homework.
Goals: I will submit at least B level work for quizzes and tests including the oral exam. I will submit all the homework on time. (Date: _______________.)
Methods: By coming to class every day and following the detailed schedule precisely. I will also read the textbook and listen to the tape, not to mention actively participating in class every day. (Date: _______________.)

Reflection: I did not do well on the listening part of the test. I did not listen to the tape faithfully. Next semester, I will focus on the listening skill area since I know it is my weak area. I will make use of the language partner program to develop my speaking skills as well. (Date: _______________.)

Goals and Methods for the Review Session.
Goals: 1) Provide an informative and helpful review session.
2) Have fun and incorporate the Japanese pop culture into the review session.
3) Thoroughly understand the subject matter that we are going to present for effective discussion in class.
4) Have fun while doing it!
Methods:
1) To study the subject matter in advance, alone and with the group.
2) Discuss the subject matter with my group mates and try to dissect the information so we are sure that we can present it to the class with confidence. Have meetings with the group prior to the presentation to make sure that the presentation goes smoothly.
3) Practice, practice and practice!

Reflection:
I thought our review session was very successful. We were able to get the majority of the class to participate in our game which combined learning comparative and superlative statements with traditional Japanese dances. As an added bonus, we brought candy for the students, which I think was a real hit. Next time I have to do a review session, I will try to make it as interactive as this one, as it seems to really get their attention and help them focus on the grammar points we are teaching.

Other Important Rules

<Date: _____________

Make your own kanji test
You are making your kanji test in a group of up to three or four people. It is required that you distribute responsibilities evenly. Furthermore, do not just divide the jobs, but discuss your own weak areas with your group members and come up with a way to overcome everybody's weak areas. Every section of the test must be beneficial to you and your group members.

Review session
1. Collecting the peer evaluations for your presentations and writing “Peer evaluation analysis”. The peer evaluation forms will be provided by 先生. After the review session, 先生 collects peer evaluations. You must have post review session meeting to evaluate your review session. Tally the results and write a summary and a reflection on how to improve the similar group work in the future based on the results of the peer evaluations. This is called “Peer evaluation analysis” and every member of your group share the same evaluation analysis and must be included in your ePortfolio.
2. Writing the evaluations of your classmates' presentations. It is important to give honest and sincere evaluations to your peers to develop your objectivity. Your evaluation remains anonymous. It does not have to be long, but writing comments is required. Give your classmates constructive advice. You need to include two of the evaluations you wrote in your portfolio. For the ones you decide to use in your portfolio, give originals to your sensei and submit photocopies of them in your portfolio. (You will write about 5 evaluations altogether for this project because there will be 5 or 6 review session groups in your class.)

JPN102 ePortfolio Consent Form
I understand that the ePortfolio I created as part of my JPN102 classwork will be maintained in Foard sensei’s web site (http://www.public.asu.edu/~mikof/) or Mysites of MyASU space, or FTP space as long as she needs it, and that it may be shown in her classes, or at scholarly conferences for academic demonstration purposes, currently and in the future, without notifying me. I also understand that anyone who visits Foard sensei’s website might view my ePortfolio as well. I understand that I have a choice of erasing my grades from required materials at the time of uploading them if I do not want my ePortfolio be shown in class or in conference with my grades.

What is shadowing?

- Saying sounds out loud as you hear them almost immediately, as if you were a shadow.
- Traditionally, it is used to train simultaneous interpreters.
- In the early 90’s it attracted researchers of EFL (English as a Foreign Language) in Japan.
- In the early 2000’s researchers of JFL (Japanese as a Foreign Language) explored the possibility of applying this method to Japanese language education.
- The research shows it is effective in not only improving your listening skills and pronunciation, but also in gaining grammatical accuracy and retaining vocabulary.

How to do it

- We will use Blackboard to store mp3 files for shadowing practice. Each mp3 file is 1.5 to 2.5 minutes long.
- You are required to practice with an mp3 file every day, but do NOT exceed 10 minutes of practice per day. Uttering the sound you hear out loud immediately while you are listening to the sounds that come next will activate your brain fully and wear you out. For this reason, it is more effective to practice for a short time, but do it every day.
- After you practice shadowing by listening to the sounds for about a week, you will record your first shadowing. You should not search for a text of the file. The reason why you should not is that, once you recognize the Japanese kana or kanji, you will then immediately be influenced by the sound that you associate with them. If your pronunciation needs to be improved, you have to find the true sound through listening.
- After you submit the first recording, you will receive a text all written in kana with your instructor’s check marks (grading sheet) where you had problems. At this time, we will go over the content, including grammar and vocabulary, of the text.
- You will practice focusing on your problem area for another week or so before your second/final recording. It is a good idea to listen to the model mp3 several times while checking the grading sheet to understand where you need to improve. However, during 10 minutes of practice time, do not use the grading sheet and practice only through listening to the model mp3.
- Depending on the level of the material, your final recording will be your second or third recording. The evaluation will be based on your improvement, and the rubrics can be found on Blackboard.
- A pre-test and post-test on grammar and vocabulary will be conducted before and after each shadowing to determine your progress as well.
- We use the Wimba voice board on Blackboard to record your shadowing. Please read “How to record your shadowing” on Blackboard under the “Shadowing” tab.
- You will improve your listening skill and pronunciation only if you follow what is written here and continue practicing. In order to help you keep up with your schedule, we require you to keep a record on the practice sheet that can be found on Blackboard. You are required to turn it in after you submit your final recording.

The materials you will shadow for JPN101/102

- We will use authentic materials such as an old Japanese folk story, poems, and conversational Japanese that uses colloquial style Japanese, including men’s and women’s speech. In other words, through this project, you will learn Japanese culture as well.
