Note: For courses that are crosslisted and/or shared, a letter of support from the chair/director of each department that offers the course is required for each designation requested. By submitting this letter of support, the chair/director agrees to ensure that all faculty teaching the course are aware of the General Studies designation(s) and will teach the course in a manner that meets the criteria for each approved designation.

Is this a permanent numbered course with topics? No

If yes, all topics under this permanent numbered course must be taught in a manner that meets the criteria for the approved designation(s). It is the responsibility of the chair/director to ensure that all faculty teaching the course are aware of the General Studies designation(s) and adhere to the above guidelines. (Required)

Course description:

Requested designation: Global Awareness-G

Mandatory Review: Yes

Note: a separate proposal is required for each designation.

Eligibility:
Permanent numbered courses must have completed the university's review and approval process.
For the rules governing approval of omnibus courses, contact Phylis.Lucie@asu.edu.

Submission deadlines dates are as follow:
For Fall 2015 Effective Date: October 1, 2015
For Spring 2017 Effective Date: March 10, 2016

Area(s) proposed course will serve:
A single course may be proposed for more than one core or awareness area. A course may satisfy a core area requirement and more than one awareness area requirements concurrently, but may not satisfy requirements in two core areas simultaneously, even if approved for those areas. With departmental consent, an approved General Studies course may be counted toward both the General Studies requirement and the major program of study.

Checklists for general studies designations:
Complete and attach the appropriate checklist
- Literacy and Critical Inquiry core courses (L)
- Mathematics core courses (MA)
- Computer/statistics/quantitative applications core courses (CS)
- Humanities, Arts and Design core courses (HU)
- Social/Behavioral Sciences core courses (SB)
- Natural Sciences core courses (NS/NG)
- Cultural Diversity in the United States courses (C)
- Global Awareness courses (G)
- Historical Awareness courses (H)

A complete proposal should include:
☐ Signed course proposal cover form
☐ Criteria checklist for General Studies designation(s) being requested
☐ Course catalog description
☐ Sample syllabus for the course
☐ Copy of table of contents from the textbook and list of required readings/books

It is respectfully requested that proposals are submitted electronically with all files compiled into one PDF.

Arizona State University Criteria Checklist for

GLOBAL AWARENESS [G]

Rationale and Objectives

Human organizations and relationships have evolved from being family and village centered to modern global interdependence. The greatest challenge in the nuclear age is developing and maintaining a global perspective which fosters international cooperation. While the modern world is comprised of politically independent states, people must transcend nationalism and recognize the significant interdependence among peoples of the world. The exposure of students to different cultural systems provides the background of thought necessary to developing a global perspective.

Cultural learning is present in many disciplines. Exposure to perspectives on art, business, engineering, music, and the natural and social sciences that lead to an understanding of the contemporary world supports the view that intercultural interaction has become a daily necessity. The complexity of American society forces people to balance regional and national goals with global concerns. Many of the most serious problems are world issues and require solutions which exhibit mutuality and reciprocity. No longer are hunger, ecology, health care delivery, language planning, information exchanges, economic and social developments, law, technology transfer, philosophy, and the arts solely national concerns; they affect all the people of the world. Survival may be dependent on the ability to generate global solutions to some of the most pressing problems.

The word university, from universitas, implies that knowledge comes from many sources and is not restricted to local, regional, or national perspectives. The Global Awareness Area recognizes the need for an understanding of the values, elements, and social processes of cultures other than the culture of the United States. Learning which recognizes the nature of others cultures and the relationship of America’s cultural system to generic human goals and welfare will help create the multicultural and global perspective necessary for effective interaction in the human community.

Courses which meet the requirement in global awareness are of one or more of the following types: (1) in-depth area studies which are concerned with an examination of culture-specific elements of a region of the world, country, or culture group, (2) the study of contemporary non-English language courses that have a significant cultural component, (3) comparative cultural studies with an emphasis on non-U.S. areas, and (4) in-depth studies of non-U.S. centered cultural interrelationships of global scope such as the global interdependence produced by problems of world ecology, multinational corporations, migration, and the threat of nuclear war.

Course description

This course uses video documentaries and movies to explore the way in which cultural values, economic background and human interaction impact and transform societies. Societal changes in Central and Eastern Europe contrasting and comparing with other societies and understanding global trends and issues in today's world.

Course description and objectives

This course discusses how cultural values form at the level of individuals, societies and nations, how these personal values and cultural dimensions may change under certain drivers, and how shifts in these cultural values support general transformation of societies.

The purpose of this class is to increase the multi-cultural awareness and competence of students in all lines of study and help them gain a multi-cultural perspective on the world and develop global thinking.

It aims to provide students with the knowledge and tools necessary to understand and discuss different cultures and societies in terms of their respective core cultural values, as well as to enable them to understand and explain shifts in cultural values and their impact on general transformation of societies, including the contemporary societies/cultures.

At the completion of this course, students will be able to:

• understand and explain core concepts and themes of culture theory including individual & group values, national cultures, cultural conflict, cultural change, the dynamic of emancipative vs conservative values, and societal transformation around the world.
• name, define and illustrate dimensions of national cultures;
• explain, discuss and illustrate cultural differences and conflict potential in real-life situations;
• discuss and illustrate cultural change conditions and processes over time;
• apply learned core theoretical concepts and themes to explain and discuss real life situations;
• compare and contrast among core values of different societies and explain their impact on society;
• analyze and evaluate current trends in society based on cultural values and discuss possible futures.

Good Bye, Lenin! (Germany, 2003)
Kapitalism – Our improved formula (Romania/France, 2009)
Q1: What changed and what remained the same in the East-German society, in terms of cultural elements, upon the fall of communism? (150-200 words)
Q2: Explain the phenomenon of corruption (as illustrated in Kapitalism) in terms of cultural values. (150-200 words)
Q3: Based on the realities depicted in the two videos and using the information accumulated so far through the readings, identify and describe in terms of cultural values and dimensions some similarities and some differences in the societal change process that generated the fall of communism and the transition to democracy in East-Germany and Romania. (200-250 words)

Attendance & Accommodations
Weekly homework preparation and participation is mandatory.
If you require accommodations on assignments for a disability, university-sanctioned event, or religious holiday, you must let me know in advance. See the links below for the accommodations the university provides and that this class follows:

- University-sanctioned activities: http://www.asu.edu/aad/manuals/acd/acd304-02.html

Disability Accommodations: Qualified students with disabilities who will require disability accommodations in this class are encouraged to make their requests to me at the beginning of the semester either during office hours or by appointment. Note: Prior to receiving disability accommodations, verification of eligibility from the Disability Resource Center (DRC) is required. Disability information is confidential.
Establishing Eligibility for Disability Accommodations: Students who feel they will need disability accommodations in this class but have not registered with the Disability Resource Center (DRC) should contact DRC immediately. Their office is located on the first floor of the Matthews Center Building. DRC
Evaluation and Grading

Please refer to this rubric when writing and editing your answers/statements. Make sure you stay on topic, organize your composition well, focus on tasks or questions and provide well-documented arguments and develop solid ideas.

Every week the student can accumulate a total of 100 points. Therefore, at the end of the semester the maximum points accumulated could be 700. The final grade is calculated by dividing the total number of points by 7 => maximum points 700/7=100.

**Academic Integrity**

The aim of education is the intellectual, personal, social, and ethical development of the individual. The educational process is ideally conducted in an environment that encourages reasoned discourse, intellectual honesty, openness to constructive change and respect for the rights of all individuals. Self-discipline and respect for the rights of others in the university community are necessary for the fulfillment of such goals.

According to the Student Academic Integrity Policy, every assignment and test for this course that the student completes must be entirely his/her own work and no one else's. Submission of an assignment is equivalent to a statement that this is your own work. Scholastic dishonesty on any assignment will result in a failing grade (E) for that assignment which may not be dropped. If you are confused about what constitutes academic dishonesty or cheating, you may find more information, as well as the University policy, here: [http://provost.asu.edu/academicintegrity](http://provost.asu.edu/academicintegrity)

All the contents of written materials distributed to the class are under copyright protection. You may also need permission from the author/publisher of our textbook in order to reproduce such materials. For more information on this, see: [http://www.asu.edu/aad/manuals/acd/acd304-06.html](http://www.asu.edu/aad/manuals/acd/acd304-06.html)

**Student Code of Conduct**

Students are expected to know and adhere to the Arizona Board of Regents Student Code of Conduct. A link to the ABOR manual can be found at the following page: [http://www.asu.edu/aad/manuals/ssm/ssm104-01.html](http://www.asu.edu/aad/manuals/ssm/ssm104-01.html). Students are allowed to use their laptops to take notes. Students who use their laptops for any other purpose during class time will no longer be allowed to use their computer during class. Students are not allowed to use their cell phones.

**Student Obligations**

Each student must act with honesty and integrity, and must respect the rights of others in carrying out all academic assignments. A student may be found to have engaged in academic dishonesty if, in connection with any Academic Evaluation or academic or research assignment (including a paid research position), he or she engages in any form of academic deceit, refers to materials or sources or uses devices (e.g., computer disks, audio recorders, camera phones, text messages) not authorized by the instructor for use during the evaluation or assignment; possesses, reviews, buys, sells, obtains, or uses, without appropriate authorization, any materials intended to be used for an evaluation or assignment in advance of its administration; acts as a substitute for another person in any academic evaluation or assignment; uses a substitute in any academic evaluation or assignment; depends on the aid of others, including other students or tutors, in connection with any evaluation or assignment to the extent that the work is not representative of the student's abilities; engages in plagiarism; uses materials from the Internet or any other source without full and appropriate attribution; permits his or her work to be submitted by another person in connection with any academic evaluation or assignment, without authorization; claims credit for or submits work done by another; signs an attendance sheet for another student, allows another student to sign on the student's behalf, or otherwise participates in gaining credit for attendance for oneself or another without actually attending.

**Title IX**

Title IX is a federal law that provides that no person be excluded on the basis of sex from participation in, be denied benefits of, or be subjected to discrimination under any education program or activity. Both Title IX and university policy make clear that sexual violence and harassment based on sex is prohibited. An individual who believes they have been subjected to sexual violence or harassed on the basis of sex can seek support, including
counseling and academic support, from the university. If you or someone you know has been harassed on the basis of sex or sexually assaulted, you can find information and resources at https://sexualviolenceprevention.asu.edu/.

**Policy against threatening behavior**
All incidents and allegations of violent or threatening conduct by an ASU student (whether on- or off campus) must be reported to the ASU Police Department (ASU PD) and the Office of the Dean of Students. If either office determines that the behavior poses or has posed a serious threat to personal safety or to the welfare of the campus, the student will not be permitted to return to campus or reside in any ASU residence hall until an appropriate threat assessment has been completed and, if necessary, conditions for return are imposed. ASU PD, the Office of the Dean of Students, and other appropriate offices will coordinate the assessment in light of the relevant circumstances.

**Statement on Course Content (Caveat Lector)**
It is very important that students understand that the purpose of this course is to study and understand other cultures, cultural values and cultural diversity. Even so, certain aspects of life in other societies might seem or be considered offensive by some students. If you find any of the course content offensive, please feel free to discuss it with the instructor, SILC faculty or the director of SILC. All of us may be contacted in person or by email.

2. Data Collection, Treatment, and Validation

Summary of This Chapter

The Research Settings
- The IBM Corporation
- The Use of Attitude Surveys in IBM
- Questionnaire Translation and Survey Administration
- The IBM Survey Database
- A Second Research Setting: IMEDE Business School

Data Treatment
- Frequency Distributions and Central Tendency Within Groups
- ANOVA: Country, Occupation, Gender, and Age
- Comparing 40 Countries: Matching Occupations
- Extension to 50 Countries Plus Three Regions
- Selecting Stable Questions
- Eclectic Analysis: Power Distance and Uncertainty Avoidance
- Work Goal Importance Data: Eliminating Acquiescence
- Work Goal Importance: Ecological Factor Analysis
- Putting the Four Dimensions Together
- Value Shifts in IBM Between 1967-69 and 1971-73
-Correlations Between Index Scores
- Country Clusters
- Multilingual Countries: Belgium, Switzerland, and Yugoslavia

Validation
- The Reliability of Country Dimension Scores
- Replicating the IBM Research
- Comparing With Data From Other Sources
- Economic, Geographic, and Demographic Indicators
- Adding a Fifth Dimension
- Studying Organizational Cultures
- Support and Criticisms of the Approach Followed

Notes

3. Power Distance

Summary of This Chapter

Inequality and Power Distance
- On Animal and Human Inequality
- Inequality in Society
- Inequality in Organizations
- The Concept of Power Distance
- Power Distance and Human Inequality

Measuring National Differences in Power Distance in IBM
- Organization of Chapters 3 Through 7
- A Power Distance Index for IBM Countries
- Power Distance Index Scores by Occupation
- Gender Differences in Power Distance
- Country Power Distance Index Scores and Other IBM Survey Questions

Validating PDI Against Data From Other Sources
- Straight Replications of the IBM Survey
- PDI Versus Studies of General Values in Society
- Summary of General Connotations of the Power Distance Index Found in Survey Material
4. Uncertainty Avoidance

Summary of This Chapter

The Concept of Uncertainty Avoidance

Time, Future, Uncertainty, and Anxiety

Uncertainty Avoidance in Organizations

Uncertainty Avoidance Is Not the Same as Risk Avoidance

Measuring National Differences in Uncertainty Avoidance in IBM

An Uncertainty Avoidance Index for IBM Countries

Uncertainty Avoidance Versus Power Distance

Occupation and Gender Differences in the Scores on the Uncertainty Avoidance Items
