CLASS REQUIREMENTS:
1. IN THIS CLASS ALL STUDENTS ARE EXPECTED TO WORK IN GROUPS. Throughout the semester, the class would be divided into groups of 4. The instructor will form new groups so that all students have the opportunity to participate equally and develop their skills on leadership and teamwork. The intention is to promote an in-depth knowledge of the subject through critical thinking and “cause and effect”, by utilizing active, collaborative, and problem based learning strategies. Remember the most learning takes place when the students are actively engaged with the course.

2. Students are expected to read and complete their homework after every class, so that they can be prepared for the class review/discussion that will take place at the beginning of each class. The instructor will call upon students to answer questions in order to review and assess learning.

3. ATTENDANCE: Attendance to every class is important as grades are allotted for class participation. The instructor will pass around an attendance sheet for you to sign in everyday when you come to class. You are expected to sign the attendance sheet within the first 10 minutes of the beginning of the class. If you are not present when the sheet is being passed around, then you will miss your attendance. Students must stay in class throughout the class period. No attendance and points will be given to tardy students or students who leave during the class time without informing the instructor.

4. The instructor is willing to make reasonable accommodations for limitations due to any disabilities. Please see me before or after class to discuss any special needs that you may have. Student Services in the College: Please make sure to utilize the tutoring, advising, financial aid, student life, personal and career counseling services in the college.
