3. CONTACT PERSON: Name: Takeyuki Tsuda Phone: 5-7887
   Mail Code: 2402 E-Mail: takeyuki.tsuda@asu.edu

4. ELIGIBILITY: New courses must be approved by the Tempe Campus Curriculum Subcommittee and must have a regular course number. For the rules governing approval of omnibus courses, contact the General Studies Program Office at 965-0739.

5. AREA(S) PROPOSED COURSE WILL SERVE. A single course may be proposed for more than one core or awareness area. A course may satisfy a core area requirement and more than one awareness area requirements concurrently, but may not satisfy requirements in two core areas simultaneously, even if approved for those areas. With departmental consent, an approved General Studies course may be counted toward both the General Studies requirement and the major program of study. (Please submit one designation per proposal)

Core Areas
- Literacy and Critical Inquiry–L
- Mathematical Studies–MA
- Humanities, Fine Arts and Design–HU
- Social and Behavioral Sciences–SB
- Natural Sciences–SQ

Awareness Areas
- Global Awareness–G
- Historical Awareness–H
- Cultural Diversity in the United States–C

6. DOCUMENTATION REQUIRED.
   (1) Course Description
   (2) Course Syllabus
   (3) Criteria Checklist for the area
   (4) Table of Contents from the textbook used, if available

7. In the space provided below (or on a separate sheet), please also provide a description of how the course meets the specific criteria in the area for which the course is being proposed.

Social and Behavioral Sciences: The class is a broadly interdisciplinary social science course that examines how migration impacts social relationships between migrants and between migrants and the majority host society. It draws from anthropological perspectives but also includes readings/perspectives from sociology, political science, and economics.

Cultural Diversity in the U.S.: The course focuses primarily on immigrants in the U.S., which is the predominant source of contemporary cultural/ethnic diversity in the country. It has extensive coverage of both Mexican and other Latin American immigrants/immigrant minorities, as well as immigrants and minorities from Asia.

CROSS-LISTED COURSES: \(\square\) No \(\Blacksquare\) Yes; Please identify courses: TCL 294, SOC 294, APA 294, JUS 294

Rev. 1/94, 4/95, 7/98, 4/00, 1/02, 10/08

New Course
Is this a multisection course?:  ☐ No  ☐ Yes; Is it governed by a common syllabus?

Dear General Studies Committee,

We are respectfully asking for a general studies designation for this course. We will be requesting a permanent course number for **ASB 294 Migration and Society** in the semesters to come. We are planning for this course to be a large lecture course and we will be teaching the course every semester. The first time we will teach this course is Fall of 2009. We appreciate your consideration of this request.

Cordially,

Sander van der Leeuw
Director SHESC
Arizona State University Criteria Checklist for

SOCIAL AND BEHAVIORAL SCIENCES [SB]

Rationale and Objectives

The importance of the social and behavioral sciences is evident in both the increasing number of scientific inquiries into human behavior and the amount of attention paid to those inquiries. In both private and public sectors people rely on social scientific findings to assess the social consequences of large-scale economic, technological, scientific, and cultural changes.

Social scientists' observations about human behavior and their unique perspectives on human events make an important contribution to civic dialogue. Today, those insights are particularly crucial due to the growing economic and political interdependence among nations.

Courses proposed for General Studies designation in the Social and Behavioral Sciences area must demonstrate emphases on: (1) social scientific theories and principles, (2) the methods used to acquire knowledge about cultural or social events and processes, and (3) the impact of social scientific understanding on the world.
Proposer: Please complete the following section and attach appropriate documentation.

### ASU--[SB] CRITERIA

A SOCIAL AND BEHAVIORAL SCIENCE [SB] course should meet all of the following criteria. If not, a rationale for exclusion should be provided.

ASB 294: Migration and Society
Fall Semester 2009
Monday and Wednesday 3:30 – 4:45pm

Description:
International migration has become an important global force reshaping societies throughout the world. According to United Nations estimates, the total volume of international migration increased 60 percent from 120 million in 1990 to 191 million in 2005 and is expected to continue growing at a rapid pace as global demographic and economic inequalities between nations widen while they become increasingly interconnected through globalization. In response, governments have attempted to control and manage these migration flows and contain anti-immigrant public backlashes, while dealing with increasing demands for immigrant rights, services, and political representation. Global migration is fundamentally reshaping the economic, ethnic, and political dynamics of various host societies while having a profound impact on the families and communities of the migrants themselves.

This course will examine the social and ethnic consequences of international migration from a comparative perspective with a focus on the United States. Some of the fundamental questions we will address in this course include: What causes people to migrate across national borders and settle in foreign countries? What kind of ethnic experiences do migrants have and how does it affect their identities? How does the majority host society react ethnically to immigrants and what kind of citizenship rights does it grant to immigrants? In what ways do men and women experience migration differently? How do migrants maintain social relationships with those back in their home countries and how does this affect their sense of national allegiance and social integration into the host society? What happens to the second generation descendants of immigrants?

After discussing the causes of international migration and the policies governments have adopted to control it, this course will examine the impact of immigration on ethnic and gender relations and identities. We will also consider immigrant attachments to their homelands, the formation of transnational ethnic communities and diasporas across national borders, and majority public and ethnic opinion toward immigrants. Then, we will study the long-term status of immigrants in the host society. This includes the permanent settlement of immigrants, the conferral of basic rights, social services, and citizenship to immigrants, and the experiences of second generation immigrant minorities. The course focuses mainly on labor migrants, but refugees and asylum seekers will also be briefly considered. It will include case studies of immigration in the United States, Japan, and Europe.

Although this course focuses on anthropological approaches to the study of immigration, it is broadly interdisciplinary and will incorporate topics and perspectives from sociology, political science, and even economics.

Classes will be mainly lecture format, but I will always actively encourage students to ask questions during lecture.

Requirements:
Two midterm take home exams and a final take home exam will be assigned. These exams will test you on some factual knowledge and basic concepts, but they will mainly consist of short answer questions designed to assess your understanding and ability to analyze readings and course lecture material. All exams must be submitted both as a printed hardcopy and through Blackboard (under the Assignments link).

The average amount of reading per class for undergraduate students is 33.5 pages or 67 pages/week (944 pages total for the entire semester).

All course materials will be posted on Blackboard, including announcements made in class, handouts, and grades. I will also digitally record all the lectures. If you miss a class for a legitimate reason and would like to listen to the lecture (or would like to re-listen to a lecture you attended for a paper, etc.), please let me know and I will allow you to download the audio file from Blackboard (click on Communication, then Group Pages, then the date of the lecture, then File Exchange). Such limited access to lecture recordings is to prevent students from ditching class and downloading the lectures later. You will also need to download the PC or Mac version of the Olympus DSS player to listen to the lecture audio files (go to http://www.olympusamerica.com/, click on Consumer, then Software Downloads, then Voice Recorders, then Digital Recorders, then DS-2).

You are always strongly encouraged to see the instructor in his office. I try to make myself available to students as much as possible. If you cannot make it during office hours, please make an appointment with me. You can also e-mail me or call me at my office or home (as long as it is before 10pm).

Grades:

2 midterm papers 30% each
Final paper 40%

Late papers will be marked down one grade per day late (e.g., a B+ paper becomes a B if turned in one day late, etc.). No excuses will be accepted except health/medical reasons and dire emergencies. I will grant extensions for papers, but only if you have a legitimate reason (i.e., lots of work due for other classes at the same time) and only if you notify me well in advance of the paper due date.

Although class participation will not tecand hnically be part of the grade, if you actively ask questions during the lectures (or come see me during office hours), I will take it into account when computing the final grades for borderline cases.

Readings:
Students will be required to buy a course reader from the Alternative Copy Shop at 715 South Forest Ave., right north of campus (tel.: (480) 829-7992, e-mail: alttempe@alternativecopy.com).
Policy on Plagiarism:
Plagiarism is the intentional use of material from someone else’s written work without acknowledging the source. This includes turning in papers/exams written by someone else or copying passages from someone else’s written work in your paper without properly citing it. It does not matter whether the material you are copying is from a published or unpublished text or manuscript, from the internet, or the written work of other students. If you use someone else’s written work and misrepresent it as your own, it is plagiarism, among the most serious types of academic cheating.

By taking this class, you are promising that you will not plagiarize. If you think there is any chance you might plagiarize for whatever reason (academic dishonesty, to avoid doing the work for the class, being too busy with other classes or a job, etc.), please withdraw from the class. All undergraduate exams will be scanned using SafeAssignment on Blackboard, which compares them against everything posted on the internet, online article/paper databases, newspapers and magazines, and papers submitted in previous years by ASU students. If you are caught plagiarizing, you will automatically receive an “E” for the course.
