Rationale and Objectives

The humanities disciplines are concerned with questions of human existence and meaning, the nature of thinking and knowing, with moral and aesthetic experience. The humanities develop values of all kinds by making the human mind more supple, critical, and expansive. They are concerned with the study of the textual and artistic traditions of diverse cultures, including traditions in literature, philosophy, religion, ethics, history, and aesthetics. In sum, these disciplines explore the range of human thought and its application to the past and present human environment. They deepen awareness of the diversity of the human heritage and its traditions and histories and they may also promote the application of this knowledge to contemporary societies.

The study of the arts and design, like the humanities, deepens the student’s awareness of the diversity of human societies and cultures. The arts have as their primary purpose the creation and study of objects, installations, performances and other means of expressing or conveying aesthetic concepts and ideas. Design study concerns itself with material objects, images and spaces, their historical development, and their significance in society and culture. Disciplines in the arts and design employ modes of thought and communication that are often nonverbal, which means that courses in these areas tend to focus on objects, images, and structures and/or on the practical techniques and historical development of artistic and design traditions. The past and present accomplishments of artists and designers help form the student’s ability to perceive aesthetic qualities of art work and design.

The Humanities, Arts and Design are an important part of the General Studies Program, for they provide an opportunity for students to study intellectual and imaginative traditions and to observe and/or learn the production of art work and design. The knowledge acquired in courses fulfilling the Humanities, Arts and Design requirement may encourage students to investigate their own personal philosophies or beliefs and to understand better their own social experience. In sum, the Humanities, Arts and Design core area enables students to broaden and deepen their consideration of the variety of human experience.

Revised April 2014

**Evaluation Procedures:**

**Homework:** Approximately 16 short homework assignments (Chapter), in Canvas, designed to aid you in preparation for your quizzes. Homework assignments are worth 25% of the final grade. Homework is due the next class period after it is assigned; check Canvas. No late work will be accepted.

**Quizzes:** Four quizzes, in Canvas. Quizzes are worth 25% of the final grade. There are no makeup quizzes.
- **Due Dates**
  - February 9
  - March 22
  - April 11
  - May 7

**Research Paper:** A 2,000-word (approximately 8 pages) research paper is required. The topic of the paper is chosen by you with my approval. There will be “Title” and “Works Cited” pages (formatting of both will be discussed in class). The research paper is worth 25% of your final grade. ANY section (Topic Paragraph, Outline/Title/Works Cited, First Draft, Final Paper) of the paper that is submitted late will result in a 10% reduction in the paper’s grade (for each class period that the section is late).
- **Due Dates**
  - Wednesday, February 7 – Topic Chosen: Turn in a 25-50 word “typed” description of the scope of the project. Your name should be typed at the top of the paper. Although this is only a few sentences, correct spelling and grammar are expected.
  - Monday, March 5 – Outline, title page and works cited page due: Format of each will be discussed throughout the first few weeks. Most of the research should be done by this point. What’s left is to write it out.
  - Wednesday, April 4 – Draft One is due. Include all notes taken (index cards, photocopies, etc…). This should be a near-finished product. If you want help, there is a writing center in the CL building.
  - Friday, April 27th – Final Paper due.

**Class Participation:** Attendance, punctuality, and participation in class discussion and in-class projects are worth 25% of the final grade.

**Concert Essays:** (Required of Honors Students; Extra Credit for others) Two college-level or professional classical concert essays. All concerts must be approved by the instructor. Turn in a one-page (at least 250 words) typewritten descriptive essay of each concert. The essay must include the name(s) of the performers, the date and time, the venue, and the entire program of the compositions performed. The essay should also try to incorporate musical elements discussed in class such as instrumentation, repertoire, form, etc... Each essay is worth 5% (subtracted from honors if not completed; added as extra credit) the final grade (10% total).
