Recommend for Revise/Resubmit

From ASU:

NTR 355 Eating for Lifelong Health

Rationale: The instructor should be commended for her effort to revise the original submission for this designation. However, the committee was not able to decipher if the “Group Assignments” require each student in the group to create a 700-word written response or if the group is creating one document. Resolving this question would be key to understanding whether 50% of assignments involve individual writing work, as per L-designation criteria. In addition, the committee needs further elaboration on the NPAA assignment in order to determine whether it meets the criteria for “critical inquiry” that goes beyond personal reflection.
