### Course Description:

Is this a cross-listed course? No

If yes, please identify course(s):

Is this a shared course? No

If so, list all academic units offering this course:

Note: For courses that are crosslisted and/or shared, a letter of support from the chair/director of each department that offers the course is required for each designation requested. By submitting this letter of support, the chair/director agrees to ensure that all faculty teaching the course are aware of the General Studies designation(s) and will teach the course in a manner that meets the criteria for each approved designation.

Is this a permanent-numbered course with topics? No

If yes, each topic requires an individual submission, separate from other topics.

### Requested Designation:

Social-Behavioral Sciences (SB)

Mandatory Review: Yes

### Eligibility:

Permanent numbered courses must have completed the university’s review and approval process. For the rules governing approval of omnibus courses, contact [Phyllis.Lucie@asu.edu](mailto:Phyllis.Lucie@asu.edu).

### Submission Deadlines Dates Are As Follow:

- For Fall 2020 Effective Date: October 10, 2019
- For Spring 2021 Effective Date: March 5, 2020

### Area Proposed Course Will Serve:

A single course may be proposed for more than one core or awareness area. A course may satisfy a core area requirement and more than one awareness area requirements concurrently, but may not satisfy requirements in two core areas simultaneously, even if approved for those areas. With departmental consent, an approved General Studies course may be counted toward both the General Studies requirement and the major program of study. It is the responsibility of the chair/director to ensure that all faculty teaching the course are aware of the General Studies designation(s) and adhere to the above guidelines.

### Checklists for General Studies Designations:

- Literacy and Critical Inquiry core courses (L)
- Mathematics core courses (MA)
- Computer/statistics/quantitative applications core courses (CS)
- Humanities, Arts and Design core courses (HU)
- Social-Behavioral Sciences core courses (SB)
- Natural Sciences core courses (SQ/SG)
- Cultural Diversity in the United States courses (C)
- Global Awareness courses (G)
- Historical Awareness courses (H)

### A Complete Proposal Should Include:

- Signed course proposal cover form
- Criteria checklist for General Studies designation being requested
- Course catalog description
- Sample syllabus for the course
- Copy of table of contents from the textbook and list of required readings/books

### It is Respectfully Requested that Proposals Are Submitted Electronically with All Files Compiled into One PDF.

Rev. 4/2019
Rationale and Objectives

Social-behavioral sciences use distinctive scientific methods of inquiry and generate empirical knowledge about human behavior, within society and across cultural groups. Courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a complex and evolving world.

In both private and public sectors, people rely on social scientific findings to consider and assess the social consequences of both large-scale and group economic, technological, scientific, political, ecological and cultural change. Social scientists' observations about human interactions with the broader society and their unique perspectives on human events make an important contribution to civic dialogue.

Courses proposed for a General Studies designation in the Social-Behavioral Sciences area must demonstrate emphases on: (1) social scientific theories, perspectives and principles, (2) the use of social-behavioral methods to acquire knowledge about cultural or social events and processes, and (3) the impact of social scientific understanding on the world.

Revised April 2014
Proposer: Please complete the following section and attach appropriate documentation.

### ASU--[SB] CRITERIA

A SOCIAL-BEHAVIORAL SCIENCES [SB] course should meet all of the following criteria. If not, a rationale for exclusion should be provided.

and amateur sporting ideology, and discuss sport as play, pleasure, art, labor, education, business, entertainment, therapy, community, and more

3  Historical Analysis: The origins of modern sport in the United States are a product of the value systems, political systems, and economic systems of the late 19th century including industrialization, urbanization, and immigration/migration. Students learn the socioeconomic class origins of the amateur sporting ethos, and the ways sports reinforced gender and racial hierarchies; and how women and people of color organized their own sporting opportunities, often as part of other political activist agendas

Course Description:  
This course focuses on major themes in sports history in the United States, from the mid-nineteenth century to the present, organized topically around spring sports. Themes in the course encourage students to think critically about relationships between sport and society, identity, community, media, capitalism, and education. Lectures, discussions, readings, and films explore race, gender, class, and sexuality as categories of analysis, and the role of sport in constructing ideas about the body along gender and racial lines. The course also highlights social justice issues in sport as well as athlete activism throughout the twentieth and early twenty-first centuries. We will explore the ways the participation of Black, Latino/a, and Native American athletes has mirrored, pushed, lagged, and diverged from Black, Latino/a, and Native American citizens’ participation in society throughout United States history. We also will study the process through which the equal opportunity to participate in school sports became defined as a civil right, and, more recently, a human right. We will explore historical constructions of sport as play, labor, exercise, education, and fitness for citizenship, and discover how these overlapping definitions change across time and space.

Learning Outcomes:  
Like a jump shot or crossover dribble, critical thinking and historical writing are skills which may be improved with practice and hard work. In this course, students will complete writing assignments which develop critical thinking skills and the ability to process information and present it in an analytical way. Some of these assignments will involve interpreting primary source materials; students will practice historicizing documents of the past by understanding them as products of a particular time and place. Other assignments ask students to explore the ways in which historians have used sport as a window into understanding the broader issues of
the American past. Students will draw from readings, films, and podcasts in the required writing assignments of the course.

**Course Requirements, Class Meetings:**
Students are responsible for all required media, and are expected to come to class prepared to discuss assigned readings and media. Students also are responsible for information from class lectures and discussions; the content presented in class will not always be included in the assigned materials. The course includes two exams (midterm and final) which take place in class. Attendance and participation are required.

**Course Requirements, Online Component:**
Students are responsible for all additional information and required materials available online through the course Canvas site. The course also includes two primary source assignments, five discussions, and a research project.

**Discussions:**
Students will participate in 5 discussions in Canvas. Students will work from a provided list of questions and develop their own questions for the group. Students will discuss topics within the context of the course and the information learned from assigned materials and class lectures. Further instructions and a grading rubric are provided in Canvas.

**Primary Source Assignments:**
There are 2 primary source assignments in this course. Prompts for the assignments will include instructions to access historical newspapers and government documents, the grading rubric, and instructions for formatting, citations, and submission through Turn It In in Canvas.

**Exams:**
This course includes 2 exams. The midterm exam will take place in class on **Tuesday, March 3.** The final exam will take place during final exams week and will be scheduled midway through the semester because this is a nontraditional, hybrid course that falls outside the regular final exam schedule. Each student is responsible to bring an examination booklet (blue book/green book) to both the midterm and final exams. Students will have 75 minutes to complete the midterm and 110 minutes for the final exam. Exams will include short and long essays.
Late Policy:
Late assignments will receive a 10-percent reduction in grade per day (24-hour period).

Attendance and Participation:
Attendance and participation are important for both the class conversations and the student’s grade, making up 10 percent of the final grade. Attendance will be taken regularly. Participation requires a demonstration of fulfilling the reading requirements, thinking critically about ideas and events, and contributing to class conversations. All ideas are welcome if they concern the course material and are respectful of others. Intellectual debate is encouraged and must remain respectful.

Laptops, tablets, phones are ok! But please respect your fellow classmates and do not become a distraction in our classroom. Use technology for notetaking purposes or research related to the lecture/discussion topic.

Interacting with the Instructor:
My purpose is to be a resource for you as you proceed on your intellectual journey as an ASU student. Talking sports – and especially sports and society – is fun! I am happy to answer questions pertaining to the content of the course. If you have questions about assignments or the structure of the course, please consult the syllabus and Canvas before emailing me; you may be able to find the answer on your own. I will respond to all email messages within 24 hours.

Technology Issues and Problem Shooting:
The university provides many resources for you if you encounter technological problems. Visit MyASU for IT support. If there is an issue in Canvas or assigned online media (and there will be! a broken link or some other issues always happens), please alert me to the issue. Please try, first, to delete your browsing history and cookies, and try a different web browser (Chrome, IE, Firefox, Safari). If the issue with Canvas or assigned online media still occurs, please contact me (I will be grateful!) so I can work to resolve the issue and let the rest of our class know.

Students with Disabilities:
The University has resources to assist students with disabilities. For more information please see the Matthews Center (Disability Resource Center) or visit the website: https://eoss.asu.edu/drc. The DRC keeps all correspondence confidential. Do not wait to contact the DRC if you need support for any of your ASU classes. The DRC staff will meet with you to determine accommodations based on appropriate documentation. Faculty members are not authorized to provide or approve any accommodations for students without instructions from the DRC office.

Academic Integrity Policy and Plagiarism:
This course has a zero-tolerance policy for academic cheating and plagiarism. Penalties range from a 0 on the assignment to an E or XE in the course. Academic cheating will be reported to university officials. Violations of academic integrity include copying another student’s work, using unauthorized aids during exams, copying internet sources, failing to acknowledge intellectual debts, and representing someone else’s work as your own. For more information on ASU’s Academic Integrity Policy, please visit: https://provost.asu.edu/academicintegrity
ASU’s Policy on Threatening Behavior:
All incidents and allegations of violent or threatening conduct by an ASU student (whether on-or off campus) must be reported to the ASU Police Department (ASU PD) and the Office of the Dean of Students. If either office determines that the behavior poses or has posed a serious threat to personal safety or to the welfare of the campus, the student will not be permitted to return to campus or reside in any ASU residence hall until an appropriate threat assessment has been completed and, if necessary, conditions for return are imposed. ASU PD, the Office of the Dean of Students, and other appropriate offices will coordinate the assessment in light of the relevant circumstances.

ASU’s Title IX Policy:
Title IX is a federal law that provides that no person be excluded on the basis of sex from participation in, be denied benefits of, or be subjected to discrimination under any education program or activity. Both Title IX and university policy make clear that sexual violence and harassment based on sex is prohibited. An individual who believes they have been subjected to sexual violence or harassed on the basis of sex can seek support, including counseling and academic support, from the university. If you or someone you know has been harassed on the basis of sex or sexually assaulted, you can find information and resources at https://sexualviolenceprevention.asu.edu/faqs

As a mandated reporter, I am obligated to report any information I become aware of regarding alleged acts of sexual discrimination, including sexual violence and dating violence. ASU Counseling Services, https://eoss.asu.edu/counseling, is available if you wish discuss any concerns confidentially and privately.

A Note about the Course Structure:
This history course is hybrid, which means that the class meets in person for 75 minutes instead of 150 minutes per week. In place of the missing class time, students work independently, studying the assigned media, participating in online discussions, and completing writing assignments. This course may appear to include a hefty amount of reading, film viewing, and writing, however, the overall course requirements are on par with other 300-level courses.

A Note on Notetaking:
Studies demonstrate that taking notes improves comprehension and retention, performance on assignments, and, therefore, grades. More recent studies suggest that taking notes by hand may improve learning and retention more than digital notetaking. To succeed in this course, I highly recommend taking notes while attending class, reading assigned texts, viewing films, and listening to podcasts.

Over the past century, high school and college athletics have grown into one of America's most beloved--and most controversial--institutions, inspiring great loyalty while sparking fierce disputes.

In this richly detailed book, Pamela Grundy examines the many meanings that school sports took on in North Carolina, linking athletic programs at state universities, public high schools, women's colleges, and African American educational institutions to social and economic shifts that include the expansion of industry, the advent of woman suffrage, and the rise and fall of Jim Crow. Drawing heavily on oral history interviews, Grundy charts the many pleasures of athletics, from the simple joy of backyard basketball to the exhilaration of a state championship run. She also explores conflicts provoked by sports within the state--clashes over the growth of college athletics, the propriety of women's competition, and the connection between sports and racial integration, for example. Within this chronicle, familiar athletic narratives take on new meanings, moving beyond timeless stories of courage, fortitude, or failure to illuminate questions about race, manhood and womanhood, the purpose of education, the meaning of competition, and the structure of American society.

Reviews

"[This book] provides a fascinating window onto race, gender, class and mainstream culture."--New York Times

"In the richness of its detail and the quality of its analysis, Learning to Win is a most satisfying book. . . . An intelligent and sophisticated book. Not only does nearly every page contain perceptive observations, but Grundy has been remarkably successful in weaving together into a smooth narrative the complex meanings of North Carolina's recent sporting history."--Journal of American History
