4.) COMMUNITY COLLEGE INITIATOR: DAVID GERKIN  
PHONE: 623-845-4762  EMAIL: david.gerkin@gccaz.edu

ELIGIBILITY: Courses must have a current Course Equivalency Guide (CEG) evaluation. Courses evaluated as NT (non-transferable) are not eligible for the General Studies Program.

MANDATORY REVIEW:

☐ The above specified course is undergoing Mandatory Review for the following Core or Awareness Area (only one area is permitted; if a course meets more than one Core or Awareness Area, please submit a separate Mandatory Review Cover Form for each Area).

POLICY: The General Studies Council (GSC) Policies and Procedures requires the review of previously approved community college courses every five years, to verify that they continue to meet the requirements of Core or Awareness Areas already assigned to these courses. This review is also necessary as the General Studies program evolves.

AREA(S) PROPOSED COURSE WILL SERVE: A course may be proposed for more than one core or awareness area. Although a course may satisfy a core area requirement and an awareness area requirement concurrently, a course may not be used to satisfy requirements in two core or awareness areas simultaneously, even if approved for those areas. With departmental consent, an approved General Studies course may be counted toward both the General Studies requirements and the major program of study.

5.) PLEASE SELECT EITHER A CORE AREA OR AN AWARENESS AREA:
Core Areas: Social-Behavioral Sciences (SB)  
Awareness Areas: Select awareness area...

Rationale and Objectives

Social-behavioral sciences use distinctive scientific methods of inquiry and generate empirical knowledge about human behavior, within society and across cultural groups. Courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a complex and evolving world.

In both private and public sectors, people rely on social scientific findings to consider and assess the social consequences of both large-scale and group economic, technological, scientific, political, ecological and cultural change. Social scientists' observations about human interactions with the broader society and their unique perspectives on human events make an important contribution to civic dialogue.

Courses proposed for a General Studies designation in the Social-Behavioral Sciences area must demonstrate emphases on: (1) social scientific theories, perspectives and principles, (2) the use of social-behavioral methods to acquire knowledge about cultural or social events and processes, and (3) the impact of social scientific understanding on the world.

Revised April 2014
### ASU--[SB] CRITERIA

A SOCIAL-BEHAVIORAL SCIENCES [SB] course should meet all of the following criteria. If not, a rationale for exclusion should be provided.

<table>

1. Course is designed to advance basic understanding and knowledge about human interaction.

2. Course content emphasizes the study of social behavior such as that found in:
   - ANTHROPOLOGY
   - ECONOMICS
   - CULTURAL GEOGRAPHY
   - HISTORY

3. Course emphasizes:
   a. the distinct knowledge base of the social and behavioral sciences (e.g., sociological anthropological).
   b. the distinct methods of inquiry of the social and behavioral sciences (e.g., ethnography, historical analysis).

4. Course illustrates use of social and behavioral science perspectives and data.

THE FOLLOWING TYPES OF COURSES ARE EXCLUDED FROM THE [SB] AREA EVEN THOUGH THEY MIGHT GIVE SOME CONSIDERATION TO SOCIAL AND BEHAVIORAL SCIENCE CONCERNS:

- Courses with primarily arts, humanities, literary or philosophical content.
- Courses with primarily natural or physical science content.
- Courses with predominantly applied orientation for professional skills or training purposes.
<p>|   | Courses emphasizing primarily oral, quantitative, or written skills. |   |</p>

| 1. Course is designed to advance basic understanding and knowledge about human interaction. | This course is designed to provide understanding and knowledge of the concepts of human resilience and well-being through reading, reflection, journaling, quizzes, and a comprehensive final exam. Factors that inhibit resilience will be explored, including chronic stress, depression, self-defeating beliefs, ruminating thoughts, trauma, and lack of purpose. Strategies that build resilience will be examined, including self-regulation, deep relaxation, mental flexibility, positive psychology, interpersonal connection, and self-care. Human interaction is foundational to most of these concepts and strategies. | Syllabus weeks 2-17  
Course Competencies 1-9  
Textbook chapters 2-7, 9-14  
Final Exam Study Guide |
| 2. Course content emphasizes the study of social behavior such as that found in Psychology. | Resilience and well-being are social and behavioral concepts. Studying these concepts requires analyzing and evaluating numerous social behaviors and their underlying psychological, and physiological concepts. In essence this course examines the behavior of people who are dysregulated due to chronic stress, trauma, and other life events, and explores cognitive, emotional, and behavioral strategies to enhance self-regulation and build resilience leading to improved psychological and social functioning. | Syllabus weeks 2, 5-16  
Course Competencies 2, 4-9  
Textbook chapters 2, 5-7, 9-13  
Final Exam Study Guide |
| 3a. Course emphasizes the distinct knowledge base of the social and behavioral sciences. | The knowledge base of the social and behavioral sciences is emphasized in this course, especially the areas of the brain's function in learning and memory, the role of the sympathetic and parasympathetic nervous systems in self-regulation, and positive psychology. Additional course topics that tap the social and behavioral knowledge base are the biological and | Syllabus weeks 2-17  
Course Competencies 1-9

Final Exam Study Guide |
psychological aspects of stress, motivation, self-efficacy, mindfulness, explanatory styles, core beliefs, self-control, purpose and meaning, healthy relationships, and social support systems.

4. Course illustrates use of social and behavioral science perspectives and data. This course uses social and behavioral science perspectives and data to study human resilience and well-being. Using a psychological perspective, informed by the biology of the brain and the nervous system, students will examine recent research data to understand human resiliency and its application to cognitive, emotional, and behavioral functioning.

Glendale Community College (Online)
CPD180: Human Resilience: Cognitive, Emotional, and Behavioral Applications
Course Syllabus: Fall 2021

Instructor Information:

- Instructor: TBD
- Office Location: TBD
- Email: TBD

Course information:

- Course format: Online
- Class number: TBD
- Classroom location: Canvas
- Class days and times: N/A (Canvas participation required)
- Course start date: 08/21/2021
- Course end date: 12/16/2021
- Final Exam: 12/16/2021 11:59PM (Canvas)

Students will be withdrawn from the course upon their fifth absence (see the section “online classes” below for details on what constitutes an absence). However, a student may be allowed up to six absences if at least one of their absences is due to a medical issue experienced by the student (an illness or injury to the student) and proper medical documentation (a dated official document from the doctor or hospital that treated the student) is presented before the next class week.

Course Description:
Exploration of human resilience and well-being within the context of personal, academic, and career life. Focus on enhancing quality of life and improving academic performance and career success through awareness of behavior, cognition, and emotion as well as the practice of self-regulation. Topics include mindfulness, positive psychology, motivation, effective thinking, applied neuroscience, mental and emotional health, and self-care.

Prerequisites: None

Course Materials:

Title: The Resilient Learner: Thriving and Succeeding in College (Second Edition)
Author: Thomas E. Rojo Aubrey
Publisher: Human eSources
ISBN: 978-1-734-440090-8
APA Book Citation:
MCCCD Official Course Competencies:
1. Recognize the historical development that gave rise to the concept of human resilience
2. Develop cognitive, emotional, and behavioral learning strategies
3. Identify values, interests, personality traits, skills, and strengths and describe their impact on personal, academic, and career development.
4. Explore cognitive, emotional, and behavioral considerations in personal, academic, and career goal setting.
5. Identify cognitive, emotional, and behavioral factors that impact personal, academic, and career performance.
6. Describe the causes, symptoms, and effects of stress and trauma.
8. Explain the importance of self-care to improve physical, mental, and emotional health.
9. Develop interpersonal connections and social support systems.

Grading Standards and Practices

Your final grade will be based on the percentage of points you earn as follows:

- Chapter 13: Engaging in Social Connectedness & Community Building (textbook)

**Videos:**
- Embedded in the textbook

**Assignments:**
1. Journal(s): Chapter 13 – Engaging in Social Connectedness & Community Building
2. Quiz: Chapter 13 – Engaging in Social Connectedness & Community Building
3. Recorded Peer Advice (Extra credit)
Late work: You must turn in all assignments complete and on time. Complete means you have done everything specified in the assignment instructions. On time means within 10 minutes of class start time on the due date. Incomplete assignments will not be graded. Assignments may be turned in early, but I do not accept them late without giving prior approval for work to be turned in late.

Make-Up Exams: You must take exams during their scheduled time. A missed exam will receive a grade of zero. If you must miss an exam, with prior instructor approval there is an exam make-up opportunity at the end of the semester. You may only make up one exam. However, you must contact your instructor within 24-hours of the due date or a zero (0) will be given as your grade.

Remember, even one missed assignment or exam may lower your grade. For best results, plan ahead, keep up with your coursework, attend class regularly and promptly communicate with your instructor about any issues impacting your academic performance.

9 Attendance Requirements

The only absences that are official absences are those that are pre-approved student activities, religious holidays, subpoenas, or death of an immediate family member. Unexcused absences may result in your withdrawal from the class or a failing grade for the semester (see Specific Attendance policy below).

CPD 180 students will be withdrawn from the course upon their fifth absence (see the section “online classes” below for details on what constitutes an absence). However, a student may be allowed up to six absences if at least one of their absences is due to a medical issue experienced by the student (an illness or injury to the student) and proper medical documentation (a dated official document from the doctor or hospital that treated the student) is presented before the next class week.

The official attendance policy of the Maricopa Community College District can be found in the GCC General Catalog and Student Handbook at http://www.gccaz.edu/catalog and is reproduced below:

A. Official Absences

Official absences are those which occur when students are involved in an official activity of the college (e.g., field trips, tournaments, athletic events) and present an official absence excuse form. Absences for such events shall not count against the number of absences allowed by an instructor or department.

Students who must miss a class for an official reason must obtain an official absence verification card from the appropriate dean or associate dean and present it to the appropriate instructor(s) before the absence. Prior arrangements must be made with each instructor for make-up work. If prior arrangements have been made, the student will not be penalized.

Other official absences include jury duty and subpoenas. Appropriate documentation will be required. Prior arrangements must be made with each instructor for makeup work. If prior arrangements have been made, the student will not be penalized.

In the event of the death of an immediate family member, absences for periods of up to one week will not be counted against the number of absences allowed by an instructor or department. Students should contact instructor(s) as soon as possible to arrange for make-up work. Appropriate
documentation will be required (for example, a copy of the obituary or funeral program). In specialized programs that require clinical rotations, this regulation may not apply.

B. Religious Holidays
Students shall have the right to observe major religious holidays without penalty or reprisal by any administrator, faculty member or employee of the Maricopa Community Colleges. Absences for such holidays shall not count against the number of absences allowed by an instructor or department. At least one week before the holiday, students shall submit to their instructor(s) a written statement which includes both the date of the holiday and the reason why class attendance is impossible. Prior arrangements must be made with each instructor for make-up work. If prior arrangements have been made, the student will not be penalized.

Withdrawal: If you are unable to complete the course, it is your responsibility to officially withdraw from the course. The official withdrawal policy of the Maricopa Community College District can be found in the GCC General Catalog & Student Handbook, available from the Enrollment Center or online from the GCC website: http://www.gccaz.edu/catalog

Online classes:
Attendance is taken by your weekly completion of assignments such as journals, quizzes, and discussion boards.

- You are required to log in and complete assignments on or before the due date in Canvas.
- One absence will be recorded for each assignment that you fail to submit. Even though points are lost, you are allowed to miss four (4) assignments throughout the semester. Keep in mind, however, that missing a single assignment can lower your final grade.
- If you miss five (5) assignments, you may be dropped from the course for excessive absences.
- If you encounter extenuating circumstances that cause you to be absent, please contact your instructor ahead of time.
- If you are dropped or fail the course this could affect your financial aid eligibility the following semester.

10. Student Rights and Responsibilities

Every student is expected to know and comply with all current published policies, rules and regulations as printed in the college Academic Catalog, syllabus, and/or Student Handbook.

Academic Catalog: http://www.gccaz.edu/gcc-catalog

The information in this syllabus is subject to change based on the discretion of the instructor. Students will be notified by the instructor of any changes in course requirements or policies.

11. Information for Students with Disabilities

If you have a documented disability, including a learning disability, and would like to discuss possible accommodations, please contact the GCC Disability Resources and Services office at 623 845-3080 or by email drsfrontdesk@gccaz.edu.

Classroom Accommodations for Students with Disabilities
In accordance with the Americans with Disabilities Act, the Maricopa County Community College District (MCCCDD) and its associated colleges are committed to providing equitable access to learning opportunities to students with documented disabilities (e.g., mental health, attentional, learning, chronic health, sensory, or
physical). Each class/term/semester that a student needs academic adjustments/accommodations, the qualified student is required to work with the Disability Resources & Services Office (DRS) at their individual college(s). Contact with the DRS should be made as soon as possible to ensure academic needs are met in a reasonable time. New and returning students must request accommodations each semester through DRS Connect online services. To learn more about this easy process, please contact your local DRS office.

If you have not yet established services through DRS, but have a temporary health condition or permanent disability that requires accommodations, you are welcome to contact DRS by using the information listed on the following webpage: https://district.maricopa.edu/consumer-information/disability-resources/contacts. The DRS offers resources and coordinates reasonable accommodations for students with disabilities and/or temporary health conditions qualifying for accommodations/academic adjustments. Reasonable accommodations are established through an interactive process between you, your faculty, and DRS; and only those academic adjustments/reasonable accommodations granted by the DRS are recognized by the college and District. It is the policy and practice of the MCCCD to create inclusive and accessible learning environments consistent with federal and state law. If you are pregnant or parenting (as protected under Title IX) and would like to discuss possible academic adjustments, please contact the Disability Resources & Services Office.

**Key Expectations:**

This class requires active involvement, attendance, acquisition of the textbook by Week One, and completing assigned readings prior to class meeting. All students should allot 2-3 hours of study per credit hour of class (for a typical 3 credit class, this equals 6-9 hours of study per week outside of class time). Keep in mind that these 6-9 hours represent the average time that students spend on study, and the average grade students earn in college is a C. Therefore, to achieve high grades, you will need to dedicate better than average commitment and increased study time.

If you are taking an online class, in addition to the 6-9 hours of study per week, you will also need to dedicate approximately three (3) hours per week for online class activities.

**Academic Integrity**

Misconduct, cheating and plagiarism will not be tolerated and will result in disciplinary action as listed in the student catalog and handbook. Instructors may use third party tools to detect plagiarism.

**Instructor’s Commitment to Timely Student Feedback**

I will respond to email within 2-4 business days. I will complete grading within 5-10 days.

I will respond to Asynchronous Board Discussions within 5-7 days from the posted date.

**Policy on Sexual Harassment**

To view the full Sexual Harassment Policy, refer to the Student Handbook, Sexual Harassment Policy for Students (AR 2.4.4) (see also 5.1.8) Students should report any discrimination and/or harassment they experience and/or observe to the GCC office of Student Life in the Student Union (Phone: 623 845-3525).

Addressing Incidents of Sexual Harassment/Assault, Dating/Domestic Violence, and Stalking

In accordance with Title IX of the Education Amendments of 1972, MCCCD prohibits unlawful sex discrimination against any participant in its education programs or activities. The district also prohibits sexual harassment—including sexual violence—committed by or against students, district employees, and visitors to campus. As outlined in district policy, sexual harassment, dating violence, domestic violence, sexual assault, and stalking are considered forms of "Sexual Misconduct" prohibited by District policy.

District policy requires all college and District employees in a teaching, managerial, or supervisory role to report
all incidents of Sexual Misconduct that come to their attention in any way, including but not limited to face-to-face conversations, a written class assignment or paper, class discussion, email, text, or social media post. Incidents of Sexual Misconduct should be reported to the college Title IX Coordinator. MCCCD will provide on its Title IX Coordinators web page, a link to all the Title IX Coordinators in the district. Reports may also be reported at: https://district.maricopa.edu/consumer-information/reporting.
