Re: Recommendations for Course Proposals for Global Awareness(G) designation

Course Recommendations

Approve for G designation:

From ASU:

KOR/SLC 375 Intercultural Communication in Korea (new)

Syllabus clearly identifies how this course meets the global awareness designation. Objectives are well written and identify the various ways learners engage in the coursework. Excellent work!

Deny for G Designation:

GCU/GPH 394 The Geography of Wine (new)

Rationale: We are on the fence with this course and am happy to discuss further as a group. We struggled with feeling that, based on the information provided, there was a strong focus on wine itself, and the geography and process of wine-making. While it touches on some cultural aspects of wine, there wasn't enough information to show how cultural considerations played a large role in the course work. Better explanation of how this is a global issue and more support showing the culture-specific elements of this topic are needed here.
