Sustainability Highlights 2016

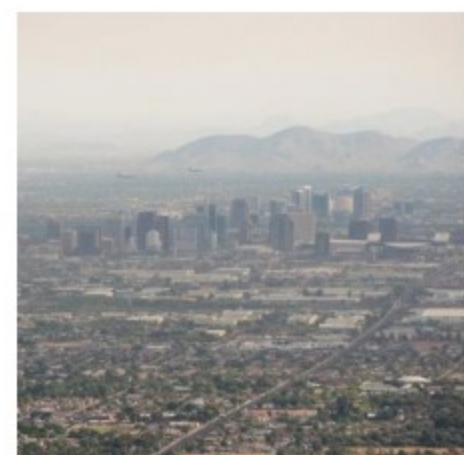

We Advance: U.N. Sustainable Development Goals

The Sustainable Development Goals, officially known as Transforming our World: the 2030 Agenda for Sustainable Development, is a set of seventeen aspirational "Global Goals." The goals and targets integrate economic, social and environmental aspects and recognize their interlinkages in achieving sustainable development in all its dimensions to ensure peace and prosperity.

[Cities can make greener purchases with help of new initiative](#)

As local governments step to the forefront of sustainability commitment-making, a team of Arizona State University researchers – including School of Sustainability Professor Nicole Darnall – launch a project aimed at making it easier for cities to "buy green." Called the Sustainable Purchasing Research Initiative, the project was informed by survey responses from 616 government officials from...

[Moving forward on climate change post Paris agreement](#)

At a Case Critical discussion about the U.S.'s withdrawal from the Paris Climate Agreement, panelists Phoenix Mayor Greg Stanton, School of Sustainability Assistant Professor Sonja Klinsky and ASU economist William Boyes expressed differing opinions about the best next steps.
