## What's a Biologist

Biologists study everything from tiny organisms to whole ecosystems. Let's take a closer look at what biologists do and how you can become a biologist.

## **Bird Finder Tool**

Test drive our Bird Finder tool based on our virtual bird aviary of the southwest. A great way to learn about birds in your own backyard. Image of Northern Cardinal above by Robert Shantz.

## **Sooty Selection**

Discuss ideas of natural selection, play a selectionbased game, and take a trip through time to see how scientists of the past figured out just how a trait is passed from a parent to its offspring.

Do I only use 10% of my brain? Answer >>
