

Undergraduate Future Students

# Undergraduate degree programs

An exceptional education transcends academic disciplines. Blows your mind. Teaches you to do good while doing well. Challenges you. Inspires you. Challenges you again. Makes it possible to turn your dreams into reality. It's the kind of education you receive right now – rather than two years and another application from now – with direct admission to ASU's W. P. Carey School of Business. Attending a direct-admit business school maximizes your ability to customize your education, and keeps you on track to graduate in four years.

**Program Type:**  **Location:**
