Sexual Violence Awareness

Sun Devils take care of ourselves, each other and our community. National surveys report that one in five women and one in sixteen men experience attempted or completed sexual assault while in college. ASU provides a variety of [reporting options](#), [resources](#), and [educational programs](#) to prevent sexual misconduct. This website provides information about what do in case an incident occurs and increases awareness of campus and community services.

ASU takes all reports of such conduct seriously and is committed to taking appropriate action to hold violators accountable and to prevent any recurrence. We work continuously to improve prevention, response, support and investigation of sexual harassment, sexual assault and other forms of sexual violence. The ASU Police Department Clery Annual Security Report, with information regarding crime statistics (including rape, domestic violence, dating violence, and stalking) and university policy is available [here](#).

ASU is committed to the health and safety of our community. Victims are not alone and we are here to help. [Download a copy of reporting options and resources.](#)
