Teaching, Learning, and Technology

Academic Innovation provides professional development opportunities related to best practices in teaching, instructional design, and integration of educational technology. Sessions, workshops, webinars, and individual consultations are available.

AI consultation services for course and curriculum design include:

- Syllabus development
- Course mapping
- Flipped classroom
- Aligning objectives with assessments
- Blending online and face-to-face course environments
- Creating a supportive learning environment
- Implementing active learning strategies
- Planning formative and summative assessments
- Blueprinting and developing course exams

AI also provides assistance in using educational technologies:

- [Blackboard](#)
- [Digital Portfolios](#)
- [Clickers](#)

How-to Guides

- [Adobe Connect](#)
- [Blackboard](#)
- [CONHI Course Syllabus Template](#)
- [Digication Digital Portfolio](#)
- [TurningPoint Cloud](#) (classroom clickers)

Teaching Resources

- NurseTim Webinars. Academic Innovation has purchased a subscription for the use of CONHI Faculty and graduate students. Webinar topics include test writing, civility, simulation, concept-based curricula, and more. To access these, please contact us.
