#### 7. First Read Legislation

a. SB 57: An Act to Amending and Adopting the Undergraduate Student Government

Tempe Bylaws

i. Senator Herbst

ii. If you have any changes it will be faster to make changes

Read changes from the Bylaws

b. SB 58: *An act to increase Senate salaries*

i. *Beaman Moves to second Read*

ii. *Loria seconds*

#### 8. Second Read Legislation

SB 57:

Herbst

There was a lot of stuff that came up about the bylaws and that is what i have been doing for a while

If you have any specific questions

Loria Makes an amendment

Change panhellenic council to pan hellenic association

And add national panhellenic council

Peoples make it the official

Change it to the official governing councils of fraternity and sorority life.

Friendly amend the legislation

To changed to from

Ashlock Clarify the GPA Requirement

Did you take into account what that will mean for those who are elected

Are you aware that this goes against election code

We did have people do the elections process prior to  
Change it to good academic standing enact the changes to in any future elections  
So the people elected will be grandfathered into the process  
Change add to that right there senator gpa Title 4 article 1 1.7  
Add a 1.8 : the provision in the bylaws  
USG had a minimum GPA before the unification of USG  
To now add a requirement after the fact it would show inconstancy these changes will the GPA  
makes senators in eligible the rest won't affect after the  
The current/ future senate can not vote on their salaries  
You don't have to call a special session  
People's point of personal privilege a rule that prevents the senate from changing bylaws it does  
not make any sense to make changes in the  
Makes changes

Senator Beaman

If we are holding senators to a gpa requirement we should hold President to same GPA the  
president should have a 2.33

More of a question I am unclear for the president requirement to run does it mean full academic  
year lack of a herberger senator if someone is appointed in one year and they fill it by the second  
senate meeting I am comfortable if some who has been a senator once and then had to work for a  
semester

Beaman I don't like this I think 13 sessions would be reasonable  
Goldberg what if they serve 12  
One full semester plus the majority of a second

Felix would you be fine if it is a 2.33 after section 3.2

Loria calls to second

Beaman seconds

SB 58:

An act to increase senate salaries

This increases it proportionally with the \$10 minimum wage

Herbst Objects

Every time we have a wage increase i wonder why the proportion is to minimum wage

When it came up to it we just felt as though we should increase everyone's wage

All the COP and other campuses wanted to increase at the same rate

Do you know what the hourly wage is that works

This is a stipend it was raised in the same way that it was \

What is the purpose of it for the minimum wage everyone else is increasing by 21% so we increase our by 21%

Beaman moves to vote by acclamation seconded by anguiano

SB Passes

9. Open Forum

Loria

I just want to gauge opinion about the new senate reviewing the standing committee's responsibilities

My committee and i work really hard ellie put more man hours into this summit than i did all of last semester.

Everything that we were doing was a lot.

I would like new senate to move college council outreach and gov ops to gov ops so they can do more than just elections code.

Herbst

Thanks for everything and bearing with me with the bylaw thing

Loris (that's announcements douche)

I know that you have finals to prepare for I know that we need to retrain as much as the next senate need your help to learn what to do.

Don't let your progress go to waste

Let them start closer to where you ended

Beaman

Get to know what each of the committee does and they know what it is like you are new and know what to do although each committee is vastly different I encourage you to meet with senators

Al ANsari

I just want to speak to the next senate and execs as we move into the new roles and we need to stop and think that this is government work not individual work. We need to achieve a balance between service and sacrifice

Don't think about yourself think about the greater purpose

Sage wisdom

Goldberg my biggest failure was not changing the elections code next senate should change the process that can change the moral of USG let's sit down and make real change

#### 10. Announcements

Loria

Thanks to my committee

Thankyou to everyone who was involved you set a standard for this senate and future senates

I would like to see you all come to the summit you should be openly communicating with your councils

Speak on their behalf and i would like to see senators speak with greater confidence about what their college wants

Best of luck new senate if you are interested in finance.

We have a lot of transition docs

This is a dark yet scary yet hopeful path

Bainchi

I know i can=me in about a month and a half late and i know you were all close knit thanks for putting that clause in for the president. I encourage the new senate to meet as many of us as you can.

#### 11. Second Roll Call

#### 12. Adjournment

Move to adjourn Goldberg Loria Seconds
