**Re:** Recommendations for Course Proposals for SB Designation

### Social-Behavioral Sciences (SB)

#### Recommend Approve

---

In general, the syllabi and proposals for all the courses were developed and presented effectively. The courses and course work focus on human interactions using SB perspectives. Only the topics that we have reviewed here are approved. Others with similar/same course numbers and names are not being given approval.

Also, although we are approving PSY 262, the course work could more explicitly articulate the SB perspective in the materials and requirements.
